Local education provider (LEP) / employer information

The employer for this post is Homerton University Hospital NHS Foundation Trust. Homerton provides acute and community services for Hackney, the City and the surrounding communities and a bespoke range of specialist services for a wider population. The Trust main site is Homerton Hospital. On 1 April 2011, community health services serving Hackney and the City (CHS) transferred to the management of Homerton. This was a hugely important development for the Trust, which is now the major provider of both hospital and community services for the people of Hackney, allowing the delivery of real benefits to patients, the community and the Trust. With the integration of community services the Trust now operates from numerous sites across Hackney, along with a small number in the City.

In addition we continue to provide a range of specialist services for communities extending well beyond our immediate locality. Our role in training the next generation of healthcare professionals remains vital, as is the part we play in healthcare research.

*It is important to note that this description is a typical example of the placement and may be subject to change.

Trust	Homerton University Hospital
Site	Homerton Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 Surgery (Breast/Urology)
Department	<p>The post involves working for 2 different teams, the Breast team and the Urology with the majority of the workload being with the latter. Thus, there are a wide range of operations performed. The FY1 is usually attached to Emergency General Surgery (EGS) every six weeks, 3- 4 times per placement, where they do ward round with the consultant and manage the inpatient acute care.</p> <p>The department is very friendly and proactive about teaching and service improvement, there are lots of opportunities for audit.</p>
Type of work to expect and learning opportunities	<p>As you cover two teams and EGS the range of patient conditions at any one time can be quite diverse. There is the opportunity to practice practical procedures in urology whilst being able to gain more general clinical experience under the breast/endocrine & EGS team. This post enables one to develop skills such as time management, organization, and communication skills as one must juggle two teams simultaneously.</p>
Where the placement is based	Homerton Hospital, Thomas Audley & Day Stay Unit
Clinical supervisor(s) for the placement	Miss Jhumur Pati
Main duties of the placement	<p>The F1 doctor is responsible with other staff for the ward care of patients and the maintenance of the patient's medical record. They are responsible for ensuring patients are adequately prepared for theatre. The FY1 attends the monthly morbidity & mortality meeting and may present cases at times. They are expected to attend the structured teaching programs provided by the department. The doctor will be responsible for such other specific clinical duties as allocated by consultants including performing other duties in occasional emergencies and unforeseen circumstances.</p>

Typical working pattern in this placement (<i>e.g. ward rounds, clinics, theatre sessions</i>)	Mon-Friday 8.00am- Urology ward round Breast ward round adhoc EGS: Daily ward rounds
---	--

	<p>Monday- urology theatre list Wednesday- urology theatre list once a month Thursday- Breast theatre list</p>

Trust	Homerton University Hospital NHS Foundation Trust
Site	Homerton Hospital, Homerton Row, E9 6SR
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 Gastroenterology
Department	The department comprises of 7 consultants monthly ward duty. The department is closely linked to Barts and The Royal London which provide tertiary services and are included in MDT meetings by teleconferencing facilities.
Type of work to expect and learning opportunities	All F1 Doctors in hospital posts will generally be ward based during the 'normal' working day and expected to deliver the daily medical care of all the patients on their ward irrespective of specialty. The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit patient care • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general medical problems • Educate patients effectively • Become life-long learners and teachers
Where the placement is based	Edith Cavell ward, Homerton University Hospital.
Clinical supervisor(s) for the placement	You may be assigned to any of the consultants in the department. It is normally whoever is covering the wards when you start your placement.
Main duties of the placement	The F1 doctor is responsible with other staff for the ward care of patients and the maintenance of the patient's medical record. They are expected to attend

	<p>educational meetings relevant to the department. These include Thursday lunchtime departmental meeting 12:30-1:30 (except Cons meeting which is 1 in 6 weeks), Grand round quarterly & Medical unit meeting weekly (Tuesday lunchtime) and Friday morning Lower GI MDT.</p> <p>It is also the responsibility of the F1 doctors to clerk in and discharge patients coming to the Medical Day Unit for liver biopsies. This is normally on a Monday and Thursday.</p>
<p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p>	<p>The hours are 0830 to 1700. There is a journal club / xray meeting with the other members of the gastroenterology department on Thursday lunchtimes.</p> <p>There are normally 2 consultant ward rounds a week.</p>

**Foundation Programme
Individual Placement Descriptor***

Trust	Homerton University Hospital
Site	Homerton Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 Pharmacology
Department	<p>The department comprises of one consultant, Dr. L. Abrams, half a registrar (registrar shared between Dr. Abrams and the Care of the Elderly team), one SHO and an FY1. Even though this post is advertised as 'Pharmacology', there is not much pharmacology involved. Instead, this is more of a general medicine rotation. The registrar and SHO have to do some weeks in Acute Care, during which time they will not be available to help with ward duties/concerns and the F1 needs to do their own ward rounds. The F1 cannot take annual leave if the SHO is away and vice versa. Dr. Abrams does OP hypertension clinics and the FY1 can choose to go to some of these clinics if there is ward cover, or not much work on the ward.</p> <p>There are also third year medical students who form part of the team. Dr Abrams teaches them on Thursday mornings and they do not attend ward rounds.</p>
Type of work to expect and learning opportunities	<p>The type of work that is expected from an FY1 is the same as that for any general medical rotation. The FY1 is required to attend all ward rounds and keep track of procedures/results for individual patients. They are also required to book tests/investigations or make appropriate referrals to other departments as advised by the consultant/Reg/SHO. On Wednesday and Friday the FY1 will do the ward round with the SHO. If the SHO is on Acute Care (usually for 5 week blocks), then the FY1 will have to do ward rounds by themselves. Any concerns can be relayed to the registrar or consultant via bleep.</p> <p>There are a number of learning opportunities. Cases that the team is likely to manage are Neutropenic sepsis, cellulitis, pyelonephritis, UTI, chest pain, heart failure, D&V, alcohol detox, overdose, headache. Dr. Abrams' is a Hypertension consultant and clinical pharmacologist; therefore, there are several opportunities to learn about these topics.</p>

	Procedures such as ABG, venipuncture, cannulation, catheterisation are all possible on this rotation.
Where the placement is based	Homerton University Hospital Lamb ward
Clinical supervisor(s) for the placement	Dr. L. Abrams
Main duties of the placement	<ul style="list-style-type: none"> • Ward rounds daily, sometimes ward rounds performed by the FY1 on their own • Daily boardrounds with nurse/PT/OT/social worker to discuss PDD. • Producing good discharge summaries • Being responsible for all patients under Dr Abrams (after they have been moved from ACU) • Making appropriate referrals to other departments, e.g Cardiology, Urology • Requesting investigations, including OGD/colonoscopy • Occasionally, attending other MDT meetings if Dr Abrams' patient will be discussed/have been referred, for example, Friday 8.30am MDT for lower GI surgery for patients suspected of having colon cancer. Also weekly micro meeting at 11am on Mondays where any patients on ABx can be discussed.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>Usual time: 8.30- 17.00 Monday- Friday. No weekends, no nights, no post- take.</p> <p>Consultant WR: every Thursday at 9.00 and Mondays at 9.00.</p> <p>Tuesday: registrar WR, also present at Dr Abrams' Thursday WR.</p> <p>All other days: SHO WR, or self WR if the SHO is on ACU.</p> <p>Monday 11am – micro meeting Thursday 10.30am: FY1 will need to be present at the coding meeting (meeting where all discharge summaries are discussed before consultant/registrar finalises them).</p>
Local education provider (LEP) / employer information	The employer for this post is Homerton University Hospital NHS Foundation Trust. Homerton provides acute and community services for Hackney, the City

Department	<p>15 consultants, 4 post CCT registrars and 13 registrars ranging between senior registrars ST5-7 and junior registrars at ST2-5. There are 12 SHO positions consisting of 4 GP trainee level, 2 career O&G at ST1/2 level, 3 FY2 gradels and 2 clinical fellows.</p> <p>Midwives work on Labour ward, Templar ward and Turpin ward. Priestley Ward has general nurses to look after the gynae patients.</p> <p>Delivery suite – 1:1 patient care, patients under consultant led care for high risk labours. Birth centre – run by midwives for low risk pregnancies. Theatres – main (obs and gynae) and day surgery (gynae).</p> <p>Post-natal ward – Templar Ward. Turpin (an annex of Templar contains a mixture of antenatal and postnatal patients but do not facilitate babies). Antenatal clinic Gynae clinic</p> <p>Priestley ward – gynae surgical inpatients</p> <p>EPAU – early pregnancy assessment unit - run by experienced nurses and only bleep doctors to see patients who need medical or surgical management (open in hours) A&E</p> <p>EOU- Emergency obstetric unit – open 24/7 to review patients of over 18 weeks gestation</p> <p>Opportunity to access specialist clinics such as fertility, TOP, hysteroscopy, colposcopy, fetal medicine</p>
Type of work to expect and learning opportunities	<p>Clerking new patients and commencing basic initial treatment Admitting patients. Seeing patients in clinics – senior cover always</p>

	<p>available.</p> <p>Postnatal/Tempplar ward – reviewing the unwell, escalating acutely unwell – discharging the well and organizing ongoing medication and follow up if appropriate. SHOs are expected to do a ward round and complete all the jobs. If anything is outstanding they can handover to the Obs SHO and can escalate to the Gynae Reg.</p> <p>Delivery suite – assisting the registrar, reviewing the acutely unwell patient. Reading CTGs (not expected to interpret them clinically), prescribing medications, chasing and interpreting bloods</p> <p>Theatre – assisting in C-sections, laparoscopic surgery, holding USS for ERPCs. However also bleeding patients pre surgery, reviewing them afterwards and doing a discharge summary/ensuring they are handed over.</p> <p>On call – all of the above (apart from clinic duties).</p> <p>Nights – carry obs & gynae bleeps, clerking to crash call on delivery suite. Also staffed by 2 regs – 1 for Obs and 1 gynae.</p> <p>Filling in consent forms for CS – therefore have to be able to explain the procedure, risks and alternatives if appropriate.</p>
<p>Where the placement is based</p>	<p>HOMERTON UNIVERSITY HOSPITAL And all the areas mentioned above.</p>
<p>Clinical supervisor(s) for the placement</p>	<p>Consultant based. The last 3 were: Ms Fernando</p>
<p>Main duties of the placement</p>	<p><u>As Gynae on call</u> Clerking patients in A&E and in EPAU – discuss with Registrar re: admission and start acute management. Assisting in theatre is common. Particularly laparoscopic procedures, or hold the USS probe in ERCPs.</p> <p><u>As Obs on call</u> You will be expected to go on the labour ward, ward round documenting on K2 computer system. You will be expected to respond to obstetric emergencies such as MOH, shoulder dystocia, but would not be expected to manage these.</p> <p><u>Post Natal/Tempplar Ward SHO</u> Completing a ward round and managing the post-natal patients.</p>

	<p><u>Theatre</u> – very enjoyable and variable experience, good learning opportunity and will gain skills in suturing. Often requires an earlier start than normal.</p> <p><u>Clinics</u> – all very good for learning best practice, seeing interesting patients and practicing clinical examination skills.</p>
<p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p>	<p><u>Typical working week</u> 0800-1700 typical working day. (may leave a little later if you need to dictate your letters or earlier to go to a main theatre list). But there is a good handover system at 0800 and 2000</p> <p>0800-2030 = on-call day; 2000-0830 = on call night shift</p> <p>Nights are broken up, there is a week off after your 3 nights. Then you do 4 nights in a row and get a week off with the option to take your annual leave off immediately after also.</p> <p>There is a 'rolling rota' which is emailed to all staff by the responsible registrar so that you are able to choose your slot and know in advance of when you are expected to do weekends/oncalls/nights.</p> <p>Weekends consist of either obs on call, gynae on call, night SHO or Templar SHO. Templar weekends only consist of 8-1 shifts.</p> <p><u>Teaching and learning</u> Teaching every Friday 0800 – where 1-2 registrars do a case presentation. Every Wednesday 1300 Neonatal morbidity and mortality meeting where the SHO is expected to present a case (notes + templates are provided to the neonatal team and obstetric team.</p> <p>The department also has its own induction booklet which goes into a lot of detail into the points mentioned in the post information.</p>
<p>Local education provider (LEP) / employer information</p>	<p>The employer for this post is Homerton University Hospital NHS Foundation Trust. Homerton provides acute and community services for Hackney, the City and the surrounding communities and a bespoke range of specialist services for a wider population. The Trust main site is Homerton Hospital. On 1 April 2011, community health services serving Hackney and the City (CHS) transferred to the management of Homerton. This was a hugely important development for the Trust, which is now the major provider of both hospital and community services for the people of Hackney, allowing the delivery of real benefits to patients, the community and the Trust. With the integration of community services the Trust now operates from numerous sites across Hackney, along with a small number in the City.</p>

	<p>In addition we continue to provide a range of specialist services for communities extending well beyond our immediate locality. Our role in training the next generation of healthcare professionals remains vital, as is the part we play in healthcare research.</p>

Individual Placement Descriptor***

Trust	Homerton University Hospital
Site	Homerton Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F2 Community Child and Adolescent Psychiatry
Department	<p>The majority of the placement is spent at the Child and Young People's Centre on Homerton Row.</p> <p>The department is made of up 5 teams – Neurodevelopmental team (NDT), adolescent mental health team (AMHT), paediatric liaison team (PLT), emotional and behavioural team (E+B) and behavioural and social outreach (BSO).</p> <p>There are 5 consultants based at the centre and two locum consultants. There are 2 registrars, 2 Psychiatry trainees and 1 F2 position.</p> <p>The majority of the staff in the department are a mixture of doctors, psychologists and mental health nurses. Clinical support staff also work on site.</p> <p>The F2 job is positioned across all the teams. The F2 will join in assessment clinics with consultants on 4 days a week. These assessments can be for a range of presentations including ADHD, autism, anxiety, depression, psychosis, self-harm, medically unexplained symptoms and behavioral difficulties. As the F2 progresses they will gain more independence during these clinics. As part of the Adolescent Mental Health Team (AMHT), who works with more acutely ill patients in the community, the F2 will attend team meetings and get to know these patients well and become involved in their case discussions and formulations.</p> <p>The F2 will be responsible for conducting medication reviews, commonly sertraline, fluoxetine and melatonin. When relevant F2s will also be asked to do basic observations on patients.</p>

<p>Type of work to expect and learning opportunities</p>	<p>The department is very laid back and relaxed. The working hours are 9-5 with no on calls and no weekends.</p> <p>The working week typically looks like: Monday morning – PLT (paediatric liason team) assessment clinic in paediatric outpatient clinic at Homerton main hospital. Assessment clinics involve documenting the meeting between new patients and the assessment clinician – typically the consultant. You will then be expected to record this on the online system (Rio) and write a letter to the patient/GP. You occasionally may be then asked to action any tasks this generates, for example, referring to another services or gaining more information from the school.</p> <p>On the afternoon following an assessment you will attend the MDT ‘POD’ meeting which each assessment is briefly presented at, with the proposed plan, which allows other professionals to provide their advice or thoughts on the case. This happens on Monday, Thursday and Fridays.</p> <p>Tuesday – AMHT team meeting in the morning, followed by consultant led assessment clinic in the afternoon.</p> <p>Wednesday – In the afternoon there is local teaching for the rest of the afternoon. Once a month this is at Barts Hospital.</p> <p>Thursday – Assessment clinic in the morning, followed by MDT ‘POD’ discussion in the afternoon.</p> <p>Friday – Assessment clinic in the morning, followed by MDT ‘POD’ discussion in the afternoon.</p> <p>Working with mainly 3 different consultants from different teams means you get exposure to each team. The rest of the unallocated time you will organize your own medication reviews and complete care plans.</p> <p>You will sometimes be clinician on duty which means you will assist with triaging new referrals and responding to urgent tasks such as assessing a new presentation to the Emergency Department.</p>

Where the placement is based	<p>Child and Young People's Centre, 15 Homerton Row, Clapton, London E9 6EZ</p> <p>Homerton university hospital</p>
Clinical supervisor(s) for the placement	<p>Consultant based. The last supervisor was Dr Kirsten Mitchell.</p>
Main duties of the placement	<p>The main role is in documentation. This is during assessments with the consultants. You will learn during this how to assess young people with mental health presentations, how to communicate with the YP and their parents, how to risk assess. You will then begin to do this independently and play an active role in the sessions. You also have to be organized and self-motivated to plan around the set clinic times and book reviews into your week. You will review medications and write prescriptions.</p>

Individual Placement Descriptor***

Trust	Homerton University Hospital
Site	Homerton Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F2 Stroke Unit
Department	<p>An acute stroke department taking patients who have recently had a stroke but are outside of the hyper-acute phase. There are 3 consultants, 2 of whom are on the ward at any point. There are 2 -3 SHOs regularly on the ward, and a registrar who spends one and a half days a week on the ward.</p> <p>The main objectives of the unit are to arrange stroke investigations and interventions and to rehabilitate patients after their strokes. Occasionally some geriatric inpatients or neurology rehabilitation patients are admitted to the ward. There are a large number of physiotherapists, occupational therapists, speech and language therapists, dieticians and other therapists with whom the medical team work closely.</p>
Type of work to expect and learning opportunities	<p>The job involves seeing the patients daily, generally on your own. There is a consultant ward round once a week and a detailed MDT meeting to discuss patient progress. There is a daily morning board round with consultants and the therapy team. Consultants see new and unwell patients daily.</p> <p>There is good opportunity to work with and learn from the different therapists. The patients are mostly stroke patients but many have multiple comorbidities so you will see a range of different illnesses/problems. There are daily consultant-led TIA and stroke follow-up clinics that you are encouraged to attend.</p> <p>The placement also involves a 5 week on call block in the acute care unit with long shifts including night and weekends. Work involves clerking new admissions, post-take and day 2 wards rounds, and ward cover out of hours.</p>
Where the placement is based	Graham stroke unit, Homerton
Clinical supervisor(s) for the placement	Dr Lehmann
Main duties of the placement	See the patients (alone or as described above) and arrange tests and any procedures/ interventions.

	Ensure documentation on ward rounds etc. Do bloods, cannulas, discharge summaries.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	9-5 in theory but if it's a busy day or if you are covering colleagues (as happens often due to acute blocks/ annual leave etc) you can stay occasionally later than this. Then you do an acute medicine block within the rotation which is a typical oncall rota with lots of long days and nights.
