Where the placement is based	<p>Kingston Hospital – with the Palliative Care Team who cover all wards within the main hospital site</p> <p>Princess Alice Hospice, Esher- on inpatient unit. May be possibility of spending time with the community team</p>

Clinical supervisor(s) for the placement	TBC
Main duties of the placement	<p>You will spend three days a week working as part of the Palliative care team at Kingston Hospital and two days a week with the team at Princess Alice Hospice, in order to gain an understanding of cross boundary care.</p> <p>At Kingston Hospital, palliative care is an advisory service. This means that we work alongside clinical teams in the hospital, offering advice and support to staff on the wards. We do not have a palliative care ward and there are no inpatients admitted under the palliative care consultants.</p> <p>At both Kingston Hospital and Princess Alice Hospice, you will work as part of the multi-disciplinary team, clinically reviewing inpatients and implementing a management plan. You will carry out single and joint reviews with other colleagues, and accompany palliative care consultants on ward rounds. You will liaise with community palliative care and take part in the weekly palliative care MDT.</p> <p>You will review patients in the Emergency Department and Acute Assessment Unit at Kingston Hospital and experience 'front door' palliative care. You may have the opportunity to spend time with the community team at Princess Alice Hospice.</p> <p>You will develop skills in recognising and diagnosing dying, understanding the difference between palliative care and end of life care, prescribing opioids and end of life injectable medications including syringe drivers and being able to deliver holistic, person centred care with complex MDT working. You will have the opportunity to develop advanced communication skills and knowledge of cross boundary working (across hospital and community).</p> <p>There are opportunities for education, teaching, quality improvement activities and management experience as detailed above.</p>
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>09:00-17:00 Monday-Friday</p> <p>There is no out of hours or on call commitment</p>

Trainee Information System (TIS) Post Code (and local post number if known)	LDN/RAX01/021/F2/003
Placement details (i.e. the specialty and sub-specialty)	F2 General Surgery – EMS
Department	General Surgery Department
Type of work to expect and learning opportunities	<ul style="list-style-type: none"> · The application of clinical skills to patients who are acutely ill after an emergency admission under surgeons or emergency surgical procedure · Take a history and examine a patient · Identify and synthesise problems · Prescribe safely · Keep an accurate and relevant medical record · Manage time and clinical priorities effectively · Communicate effectively with patients, relatives and colleagues · Use evidence, guidelines and audit to benefit patient care · Act in a professional manner at all times · Cope with ethical and legal issues which occur during the management of patients with general medical problems · Educate patients effectively · Become life-long learners and teachers
Where the placement is based	Kingston Hospital – General Surgery Department
Clinical supervisor(s) for the placement	Ioannis Gerogiannis
Main duties of the placement	<p>Working as part of the General Surgery Department mainly covering patients on Alex and Astor ward on the 4th floor Kingston Surgical Centre. The General Surgery Team is split into 3 teams: Emergency, Colorectal and Upper GI. You will work within the Emergency Surgical team and help with ward rounds and jobs. Ward rounds mostly led by the Consultants and Registrars. Scheduled opportunities to assist in theatre (including minor ops) and attend ambulatory clinic with Registrars and Consultants.</p> <p>Work as part as the on call SHO rota clerking and taking referrals, mainly in A&E but also from other teams within the hospital. General surgery registrars are not on site overnight unless required clinically but easily contactable.</p> <p>Whilst on call you also cover Urology as crosscover. During weekday hours the Urology registrar is in hospital to discuss and review patients. Out of hours the urology consultant is accessible via switch.</p>

	<p>Medical Education is well developed in our department. There is a formal teaching program led by the educational fellows on regular basis. Extra opportunities exist related to journal manuscripts publication and presentation in national and international congresses. Furthermore, on top of local QIPs there is a chance of participating in multinational audits and projects under a Consultant supervision and guidance.</p>
<p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Ward work 7.45- 17.00 with 1:12 rolling rota including weekend and night on calls.</p>
<p>Local education provider (LEP) / employer information</p>	<p>Kingston Hospital and Surrounding Area Kingston Hospital NHS Foundation Trust provides a full range of diagnostic and treatment services. The hospital supports some 320,000 people in the surrounding area including the boroughs of Kingston, Richmond, Roehampton, Putney and East Elmbridge. Kingston Hospital is one of the largest employers in the region and employs over 3,700 staff across the widest range of careers. We are proud of our reputation as the largest single site District General Hospital in London and our Maternity Unit is the second biggest in London. In a National survey, we were rated as the Best Maternity Service in London by, the National Health Watchdog, the Care Quality Commission.</p> <p>Each year, over one million people visit Kingston Hospital for treatment or as a visitor. Out of the top six London Trusts, Kingston is the only District General Hospital: the others are teaching hospitals. The hospital is ranked 15th nationally.</p> <p>The Hospital is based about 12 miles from the centre of London with good transport links into the capital and in a beautiful and historic part of the country. It lies very close to Richmond Park and is close to Hampton Court Palace; Kempton Park; and the River Thames. Further information may be found on the hospital website at www.kingstonhospital.nhs.uk</p> <p>There are 2 dedicated surgical wards, comprising 50 inpatient beds, and surgery also uses a 22 bedded short stay ward. The hospital has 8 inpatient theatres; 4-day surgery theatres, 2 minor operations suites (with a further 2 in development)</p> <p>Kingston Hospital Department of Surgery has one of the best laparoscopic Cholecystectomy services Nationally. There is a recent abdominal wall reconstruction (AWR) service developed with a variety of procedures done including an extraperitoneal approach of ventral hernias repair.</p> <p>In Kingston Hospital we developed a 7-day-per-week service with operating theatre lists running on Saturday in DSU and outpatient clinics and endoscopy running on Saturday and Sunday.</p>
