Placement details (i.e. the specialty and sub-specialty)	Acute (Internal) Medicine (Medical Assessment Unit & Medical Short Stay Unit)
Department	MAU sees approximately 6,000 acute, medical patients per year, including patients from A&E and GP referrals. It is made up of a trolleyed and bedded area, focused on delivering fast assessment, investigation and treatment of all medical patients. MSSU is a 38-bedded ward for those patients requiring less than 3day hospital admission. This is an exciting and fast paced unit, integral to delivery of high quality medical care. There is senior clinical input throughout the day, seven days a week, and care is provided in a multidisciplinary manner, by nursing , medical , physiotherapy, OT and social services all working together on a daily basis.
Type of work to expect and learning opportunities	The Medical Short Stay Unit admits a wide range of medical conditions. However, due to the demographics of the local population the majority of patients are the frail elderly, often with cognitive impairment and social problems. There will an opportunity to learn practical procedures, work in a multidisciplinary environment and conduct an audit project. A formal teaching program is in place but junior doctors will receive daily informal teaching on the consultant ward rounds.
Where the placement is based	St Peter's Hospital
Clinical supervisor(s) for the placement	Dr J Robin, Dr J Ince, Dr E Lim
Main duties of the placement	Care of patients on 38 bedded medical Short Stay Unit
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Mon: Consultant Ward Round Tues: Consultant Ward Round Weds: Consultant Ward Round Thurs: Consultant Ward Round Fri: Consultant Ward Round
Local education provider (LEP) / employer information	The employer for this post is Ashford & St Peter's NHS Foundation Trust. Ashford and St Peter's NHS Foundation Trust is a medium sized district general hospital service operating from two sites – Ashford near Staines and St Peter's near Chertsey, serving a population of around 380,000. The Trust employs over 3,400 staff making it one of the largest employers in the local area after Heathrow Airport, with an annual income of around £200 m. Further information about the Trust can be found at www.ashfordstpeters.nhs.uk .

*It is important to note that this description is a typical example of the placement and may be subject to change.

STFS is a collaboration between HE Kent, Surrey & Sussex, HE South London, Brighton & Sussex Medical School, King's College London School of Medicine & St George's University of London

Trainee Information System (TIS) Post Code (and local post number if known)	KSS/RXX10/052/F1/001 (POST 30)
Placement details (i.e. the specialty and sub-specialty)	General Psychiatry
Department	The Surrey and Borders Partnership NHS Trust was created on April 1, 2005, to provide Psychiatric and Learning Disability services for the whole county of Surrey as well as part of North East Hampshire and Croydon, and achieved Foundation status on May 1, 2008. The Abraham Cowley Unit covers a population of circa 845,000 in the North West of the Trust.
Type of work to expect and learning opportunities	<p>The F1 will work with Dr. Luk and will be part of a multi-disciplinary team. Ward work will mainly be on Blake Ward, a 21 bed ward, that provides acute care for patients with a range of mental disorders from the Runnymede (total population circa 80,000), and will include assessing inpatient admissions, regular communication meetings with the inpatient team, and intensive experience of managing psychiatric inpatients with a wide variety of illnesses. The post will also give some experience of working with a Home Treatment Team. The HTT attempts to divert clients from hospital admission or facilitate their early discharge and manages them in their own homes. Education appraisal of Foundation trainees will take place on a planned and regular basis and how the portfolio is used as part of the educational process will be explained to the trainees. In addition, dedicated senior supervision of all work will be provided as necessary. In return the Trainee will be expected to provide evidence, through the in-work assessment tools described in the Foundation Curriculum document, that the core areas of F1 competence have been met. The training and educational objectives will include:</p> <ul style="list-style-type: none"> (i) Development of an appropriate level of competency relevant to Psychiatry. (ii) gaining experience of practical procedures relevant to Psychiatry. (iii) Gaining confidence with psychiatric patients. (iv) gaining an awareness and familiarity with inpatient and crisis management. (v) Enhancing the awareness or the essence of multidisciplinary team work and communication skill. (vi) gaining the importance of evidence based clinical practice and appropriate presentation skills. <p>Education and Training: 1. Individual supervision will be provided by Dr. Azlan</p>

	<p>Luk, the approved Clinical Supervisor, regularly for one hour per week.</p> <p>2. The ACU teaching programme runs on a Friday morning during term time. Trainees will be expected to attend each week and at times present at Journal Clubs and Case Conferences.</p> <p>3. Attendance at weekly Balint Group during term time is mandatory.</p> <p>4. Trainees will attend the F1 Teaching Programme, fortnightly on alternate Monday and Thursday afternoons, at St. Peter's Hospital Postgraduate Centre.</p> <p>5. All Foundation Programme study leave is administered for cost and appropriateness by ASPH but study leave forms must be approved by Dr. Luk before final submission to ASPH.</p>		
Where the placement is based	<p>The post is based at the Abraham Cowley Unit, Holloway Hill, Chertsey, KT16 0AE, where the academic teaching also takes place. The F1 teaching programme takes place at the Postgraduate Centre at St. Peter's Hospital, Chertsey.</p>		
Clinical supervisor(s) for the placement	<p>Dr A Luk</p>		
Main duties of the placement	<ul style="list-style-type: none"> • Assisting with the interventional service at the hospital. • Provide immediate assistance and back up to radiographers and nurses. • Communication of important results. • Carrying out common radiological procedures. • Trainees will rapidly learn the basics of ultrasound guided imaging. • Trainees will be expected to perform guided pleural aspiration, peritoneal aspiration and PICC line insertion. 		
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>MAIN EDUCATIONAL OPPORTUNITIES</p> <p>These will include:</p> <p>(i) The assessment of psychiatric emergencies.</p> <p>(ii) The management of adult psychiatric inpatients with functional mental illness.</p> <p>(iii) Safe prescribing of psychotropic medication.</p> <p>(iv) Liaison with other medical services.</p> <p>(v) Doing home visits with the Home Treatment Team.</p> <p>ADMINISTRATION</p> <p>a) Routine correspondence must be answered within one week.</p> <p>b) The organisation of the professional day should include informing the secretarial staff of the Trainee's whereabouts at all times, so that he/she can be reached during the working day.</p>

Capacity Act. • Experience of preparing Mental Health Act Tribunal Reports and other reports.

	<ul style="list-style-type: none"> • Communication and team-working skills. • Understand the range of psychological and social treatments in Psychiatry. • Regular presentation of full psychiatric cases to the Educational/Clinical Supervisor
Where the placement is based	Bridgewell House
Clinical supervisor(s) for the placement	Supervisors for this placement are allocated by the Surrey and Borders trust and will be confirmed prior to the placement.
Main duties of the placement	The post holder will work as a medical member of the Woking Mental Health Recovery Service. Woking is a relatively diverse part of Surrey with a population of 120,000 with high social needs and psychiatric morbidity. The Team has a caseload of over 500 and carries out approximately 20-30 new assessments a month referred by General Practitioners and other services including Specialist Psychiatry services, IAPT, Social Services and private sectors. Assessments and treatments are offered by a multidisciplinary team consisting of two consultant psychiatrists, one associate specialist, CPNs, approved mental health professionals, psychologists and an occupational therapist. There are ample opportunities to get involved in assessing psychiatric emergencies as Woking CMHRS offers same-day assessment to emergency primary care referrals.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	40 hours per week, 8 hours per day Monday to Friday with 30 minutes unpaid break
Local education provider (LEP) / employer information	<p>The employer for this post is Ashford & St Peter's Hospitals NHS Foundation Trust.</p> <p>Established in 1998 from the merger of Ashford and St. Peter's Hospitals, the Trust has been on a long journey of development and improvement to its current position as the largest provider of acute hospital services to Surrey residents. It became a Foundation Trust in December 2010.</p> <p>Ashford and St. Peter's Hospitals NHS Foundation Trust serves a population of more than 410,000 people living in the boroughs of Runnymede, Spelthorne, Woking and parts of Elmbridge, Hounslow, Surrey Heath and beyond. The Trust employs around 4,400 individual members of staff.</p> <p>The Trust provides a whole range of services across its hospital sites. The majority of planned care, like day case and orthopaedic surgery and rehabilitation services, is provided at Ashford Hospital, with more complex medical and surgical care and emergency services at St. Peter's Hospital.</p>

*It is important to note that this description is a typical example of the placement and may be

subject to change.

Placement details (i.e. the specialty and sub-specialty)	Paediatrics
Department	The Paediatric team consists of 8 General and 5 Neonatal consultants with a separate Neonatal and general rota for both senior and junior medical staff. The Paediatric Department consists of General Paediatrics (Ash Ward and Oak Ward). Ash Ward is a 23 bedded acute unit which admits medical, surgical, orthopaedic and gynaecological patients. We have a separate HDU and adolescent bay and Oncology shared care unit – POSCU (Little Oaks). The Neonatal Intensive Care Unit is a Level 3 Unit situated in Abbey Wing. We have a designated neonatal transfer team. Our Department is committed to providing high levels of clinical service with excellent opportunities for education and training for our junior staff.
Type of work to expect and learning opportunities	There are four main areas in the Paediatric Department: Ash Ward (In-Patient Paediatric Ward) & Oak Ward (Children's Day Unit), Paeds A&E, NICU and Children's Outpatient Department. During 17-18 weeks of the rotation, the three FY1s rotate for 5-6wks between Ash Ward, Paeds A&E and NICU- this is decided between the FY1s. History- How Neonatal clerking differs from Paediatric, and Adult clerking Baby check Review of notes and scans (what to look for and why) History – important questions to ask Exam – steps and normal findings Common questions from parents Mucousy Vomiting/possetting Skin markings Feeding Passage of meconium Things essential not to miss What to refer and how Practical procedures (steps followed necessary for procedure) Heel prick SBR Blood gas Routine bloods Venepuncture Cannulation BCG and other immunisations Nasogastric tube insertion and equipment Observation of practical procedures Long lines Arterial cannulation Umbilical lines Cranial ultrasound scans Lumbar puncture Suprapubic aspiration urine Assisting SHO/SpR at deliveries Use of resuscitaire (set up and checks etc.) Assessment of newborn Documentation of resuscitation in notes Conditions requiring Paediatrician at deliveries Conditions requiring further Paediatric input and high risk folder Basic principles of problems encountered in NICU Ventilation and respiratory support Feeding Daily requirements from

	<p>birth according to gestational age Types of formula feed Weight gain Medications Supplements (what is given, when and why) Commonly prescribed drugs (antibiotics, anti-reflux, caffeine etc) Common problems encountered in term neonates after birth (Ix / Rx) Hypoglycaemia Hypothermia Jaundice Sepsis (including GBS) RDS HIE NAS Common neonatal disorders of prematurity (Presentation / assessment / management / longterm implications) RDS ROP IVH NEC Sepsis Helpful hints for other skills (primarily how this differs from adult medicine) Writing in notes on ward round (content and order; systems based) Examination of neonate on ward round (+hints on technique) Prescribing, re-writing drug charts, use of the neonatal formulary, using weight based dosing. Requesting investigations (eg routine bloods) Expected hand hygiene standards (depending on task and room) Use of sweet-ease for analgesia</p>
Where the placement is based	St Peter's Hospital
Clinical supervisor(s) for the placement	Dr S Bahl, Dr B Zoritch
Main duties of the placement	<p>Ash ward This is the paediatric inpatient ward- there is a HDU bay, a Young Persons' bay, general bay and several cubicles. As well as 'paediatric' patients, there are patients under the care of surgical, ENT, orthopaedic and gynaecological teams. Whilst the paediatric team does not become involved in the day to day care of surgical patients unless requested, the team does have an overall responsibility for these patients (to ensure that they are receiving the best care, particularly with regard to pain control, fluids, antibiotics). Oak Ward This is the day ward, where ENT and surgical patients are admitted before surgery. From Mon-Thurs there is a dedicated SHO, who will do bloods that have been pre- booked, and monitor challenges e.g. food, glucagon. Patients may be brought back to Oak Ward for review and ongoing tests as required. Path results are placed in the doctors' office and usually the Oak SHO will process the results for that day. Paediatric A&E Paediatric A&E has walk-in patients, who are usually seen by A&E doctors in the Paediatric A&E dept. Paediatric doctors see patients who are referred from A&E, via GP (letter or call) or who are complicated, likely to require admission etc. In A&E FY1s can usually have one attempt at venepuncture/ cannula, but if unsuccessful should ask for help. Use Ametop cream or sweetease solution according to age. There is a shared bleep for FY1 doctors which is usually held by the A&E FY1, so if the dept is quiet you can leave your bleep number and ask to be contacted when patients arrive, then return to the ward to help with jobs. If there are no paediatric referrals but several A&E patients, it is useful and helpful to see these patients and present to the A&E senior doctors. NICU There are several areas in the Neonatal Unit- Room 1 is intensive care, Room 3 is high dependency and Room 2 is special care. There is</p>

	also the Transitional Care unit on the postnatal ward (Joan Booker ward) where babies stay with their mothers whilst having i.v. antibiotics, phototherapy or nasogastric feeds. As the NICU FY1 you can help with ward rounds in Room 1, 2-3 or Transitional Care, attend deliveries with SHOs, and perform baby checks. You should spend your time divided equally between the different areas in NICU and the following is an overview of the learning objectives and skills you should acquire.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Monday 1pm-2pm: Paeds Teaching in PGEC, often with Drug Rep sponsored lunch. Tuesday 1.15-2pm: X-ray meeting in Seminar Room 1, NICU, Abbey Wing Wednesday 8.30-9.00: Journal Club in Seminar Room 1, NICU 1-2pm alt wks: Dr Groves ECG teaching in Sem. Rm. 1, NICU 2-4pm: SHO Teaching in Seminar Thursday 10.30-12:00: NICU Grand Round, 11.30-12.30: Paeds Grand Round, Seminar Room 1, NICU Friday

Trust	Ashford and St Peter's Hospitals NHS Foundation Trust
Site	St Peter's Hospital
Post Reference Number (and local post number if known)	KSS/RTK02/001/F1/005 (POST 08) KSS/RTK01/001/F1/005 (POST 10)
Placement details (i.e. the specialty and sub-specialty)	Stroke Medicine
Department	Stroke Unit (Cedar Ward)
Type of work to expect and learning opportunities	The Stroke Unit (Cedar Ward) is where patients who have sustained a stroke need are admitted, ideally within 4 hours of admission. There is therefore an excellent opportunity to clerk potential acute strokes, appreciate potential stroke mimics, learn about associated acute investigations including CT brain and angiograms, and become familiar with the decision making regarding potential interventions, such as lysis or thrombectomy. In addition to managing hyper acute & acute stroke patients, Cedar ward also hosts the rehabilitation unit. F1s will become familiar with the complications of stroke, the longer-term management of stroke, preventative strategies, and how neurorehabilitation and overall care is provided by the multidisciplinary team.
Where the placement is based	St Peter's Hospital
Educational / Clinical supervisor(s) for the placement	Dr Brendan Affley Supervisors are allocated yearly so the name of the Educational and Clinical Supervisor will be confirmed nearer the time of placement
Main duties of the placement	The F1 is encouraged to develop their general medical skills, e.g. history taking and examination, ordering and interpretation of investigations, oral and written communication with patients/relatives and other members of hospital staff, and safe prescribing. Supervision is provided via ward rounds and board rounds and any of the junior team are encouraged to phone for advice/help when needed. Attendance at the F1 teaching programme is expected.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	All week: Consultant ward rounds and board rounds, starting at 8.30am On call via GIM rota for unselected medical patients from A&E/GPs
Local education provider (LEP) / employer information	The employer for this post is Ashford & St Peter's NHS Foundation Trust.

Post Reference Number (and local post number if known)	KSS/RTK01/040/F2/002 (Local Post 17) KSS/RTK01/040/F2/003 (Local Post 18) KSS/RTK01/040/F2/004 (Local Post 19) KSS/RTK01/040/F2/005 (Local Post 16) KSS/RTK01/040/F2/010 (Local Post 20)
Placement details (i.e. the specialty and sub-specialty)	Obstetrics and Gynaecology
Department	<p><u>The Maternity Unit</u></p> <p>Our maternity unit delivers approximately 4000 women per annum. The Labour ward, situated on level 3 Abbey Wing, has 18 Beds, a 4 bedded high dependency area, a 4 bedded antenatal area and 2 theatres, a birthing pool and a Home from Home area for low risk cases. The antenatal/postnatal inpatients are cared for on Joan Booker ward situated on level 1. The Antenatal clinic along with the Day Assessment Unit and Obstetric Ultrasound Departments are on the ground floor of Abbey wing. Antenatal clinics are also held at Ashford hospital where Obstetric Ultrasound is also available.</p> <p><u>Gynaecology Services</u></p> <p>Gynaecology outpatient clinics are held at Ashford & St. Peter's Hospitals. There are also outreach Gynaecology clinics held at Weybridge and Woking Hospitals. Gynaecology inpatients are cared for predominantly on Kingfisher Women's Surgical Ward, Abbey Wing at St. Peter's Hospital (SPH). The Early Pregnancy Unit (EPU) is situated in Abbey Wing on the ground floor.</p>

Type of work to expect and learning opportunities	<p>All O&G SHO's have a varied rota giving them experience across a broad range of areas including Early Pregnancy Unit, general gynaecology clinic, theatres, specialist clinics such as Gynae-oncology, uro-gynaecology, fertility etc, A&E and care of gynaecology in-patients. They also gain experience on the labour ward and caring for the ante-and post natal women in the Maternity ward. They are also welcome to attend the ante-natal clinics. There is a regular Teaching programme, which you can find in your induction information and written on a white board at the consultants' offices corridor on ground level. Please note that MDT meetings also function as excellent teaching opportunities.</p>
Where the placement is based	<p>St Peter's Hospital</p>
Educational / Clinical supervisor(s) for the placement	<p>Mr Vasileios Minas</p> <p>Supervisors are allocated yearly so the name of the Educational and Clinical Supervisor will be confirmed nearer the time of placement.</p>
Main duties of the placement	<p>Care of Obs&Gynae in-patients, assist in operative procedures, observe clinics, Early pregnancy unit, pre-operative assessment of patients in designated clinic. Reviewing emergency patients in Accident & Emergency.</p>
Typical working pattern in this placement <i>(e.g. ward rounds, clinics, theatre sessions)</i>	<p>Each week is different. We have an 11 week rolling rota. The rolling rota shows the allocated Labour Ward, Gynae Emergency and night shifts. EPU, Joan Booker Ward and clinic/theatre are variable; days depend on the rota week being worked.</p> <p>Standard working day runs from 0800-1700. Evening duties are from 1700-2000/2100. Weekend on-calls are 0800-1800. Weekend labour ward is 0900-2100. There are 11 SHO level doctors on the on-call rota.</p>
Local education provider (LEP) / employer information	<p>The employer for this post is Ashford & St Peter's NHS Foundation Trust.</p> <p>Ashford and St Peter's NHS Foundation Trust is a medium sized district general hospital service operating from two sites: Ashford near Staines-upon-Thames and St Peter's in Chertsey, Surrey. Over 3,700 highly trained doctors, nurses,</p>

	<p>midwives, therapists, healthcare scientists and other support staff make up the workforce. We are the largest provider of acute hospital services in Surrey serving a population of over 410,000 people in North West Surrey, parts of Hounslow and beyond. We also run many specialist clinics in the community at local community hospitals and other healthcare facilities.</p> <p>Further information about the Trust can be found at www.ashfordstpeters.nhs.uk.</p>

**Foundation Programme
Individual Placement Descriptor***

Trust	Ashford and St Peter's Hospitals NHS Foundation Trust
Site	St Peter's Hospital
Post Reference Number (and local post number if known)	KSS/RTK01/011/F2/003 (Local Post 3)
Placement details (i.e. the specialty and sub-specialty)	Stroke Medicine
Department	Stroke Unit (Cedar Ward) & Hyper Acute Stroke Unit (HASU)
Type of work to expect and learning opportunities	<p>The newly created 9 bed Hyper Acute Stroke Unit (HASU) admits directly from the community. Patients can spend up to the first 72 hours of their stay in this unit. There is therefore an excellent opportunity to clerk potential acute strokes, appreciate potential stroke mimics, learn about associated acute investigations including CT brain, angiograms and MRI brains, and become familiar with the decision making regarding potential interventions, such as lysis or thrombectomy.</p> <p>The Stroke Unit (Cedar Ward) is now concerned with managing strokes after the first 72 hours. F2s will become familiar with the complications of stroke, the longer-term management of stroke, preventative strategies, and how neurorehabilitation and overall care is provided by the multidisciplinary team.</p>
Where the placement is based	St Peter's Hospital
Educational / Clinical supervisor(s) for the placement	<p>Dr Kirsten Kamman</p> <p>Supervisors are allocated yearly so the name of the Educational and Clinical Supervisor will be confirmed nearer the time of placement</p>
Main duties of the placement	The F2 doctor will be responsible for the care of in-patients with supervision provided by consultants and the Higher Specialty Trainees. The F2 doctor is encouraged to attend outpatient clinics to extend their knowledge and encourage to attend lysis calls in A&E. Attendance at the F2 teaching programme is expected.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>All week: Consultant ward rounds and board rounds at midday.</p> <p>On call via GIM rota for unselected medical patients from A&E/GPs</p>
