F1 - Individual Placement Descriptors

**Foundation Programme
Individual Placement Descriptor***

| | |
|--|---|
| Trust | Guy's and St Thomas' NHS Foundation Trust |
| Site | Evelina London Children's Hospital |
| Trainee Information System (TIS) Post Code (and local post number if known) | LDN/RJ1EC/002/F1/001 LDN/RJ1EC/002/F1/003 |
| Placement details (i.e. the specialty and sub-specialty) | General Paediatrics |
| Department | General Paediatrics |
| Type of work to expect and learning opportunities | Predominantly ward based working within the paediatric team to provide care to paediatric inpatients, including medical support to surgical inpatient teams Opportunity to be involved in clinical audit and local quality improvement initiatives. Comprehensive paediatric weekly teaching programme, with a variety of sessions including journal club and dedicated SHO teaching. 2 week community posting in Community Paediatrics |
| Where the placement is based | Evelina London Children's Hospital |
| Clinical supervisor(s) for the placement | A nominated General paediatric Consultant |
| Main duties of the placement | Paediatric ward rounds with individual responsibility for the care of a defined group of paediatric inpatients. Acute assessment and management of paediatric emergencies. Assessment and management of patients transferred from other hospitals for specialist care. Medical support to surgical inpatients such as fluid management, infection management, acute airway issues, acute pain management. Liaison with parents regarding care of patients Presentation at ward rounds, grand rounds and handover rounds Opportunity to practice paediatric procedures; phlebotomy, intravenous cannulation |
| Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions) | Daily Ward rounds Ward duties Admission clerking of acute admissions from the emergency department, and inter-hospital transfers. Two-week community placement with Community Paediatrics - wide range of clinics Participation in the on call rota including night shifts |
| Local education provider (LEP) / employer information | Guy's and St Thomas' is one of the largest hospital trusts in the country, with a staff of almost 12,500, a turnover of over £1 billion and 900,000 patient contacts a year. The Trust comprises two of London's oldest and best known teaching hospitals. The hospitals have a long history, dating back almost 900 years, and have been at the forefront of medical progress and innovation since they were founded. Both hospitals have built on these traditions and continue to have a reputation for excellence and innovation. We are part of King's Health Partners Academic Health Sciences Centre (AHSC), a pioneering collaboration between one of the world's leading research-led universities and three of London's most successful NHS Foundation Trusts. Our AHSC is one of only five in the UK. It consists of King's College London, and Guy's and St Thomas', King's College |

| Trust | Guy's and St Thomas' NHS Foundation Trust |
| Site | Lambeth Hospital |
| Trainee Information System (TIS) Post Code (and local post number if known) | LDN/RJ121/052/F1/002 |
| Placement details (i.e. the specialty and sub-specialty) | General Adult Psychiatry |
| Department | Lambeth Triage Ward |
| Type of work to expect and learning opportunities | |
| Where the placement is based | Lambeth Triage Ward, Oak House, Lambeth Hospital, 108 Landor Road, London SW9 9NU |
| Clinical supervisor(s) for the placement | Dr Jonathan Beckett/Dr Martin Baggaley |
| Main duties of the placement | The ward is the acute admission facility for all Lambeth adult mental health patients and provides screening and comprehensive assessment for all patients admitted to the service usually at a point of crisis. There are 18 beds, of which 10 are male and 8 are female. Patients therefore present with a very wide range of psychiatric conditions. The trainee is an integral part of a multidisciplinary team, which incorporates a very strong medical resource (2 consultants, 1 full time SpR, 2 CT1 trainees and 1 LAS doctor), nursing team, psychologist and OT. The trainee's role on the ward is to undertake ward round duties, ward jobs to implement action plans made at ward round, referrals, admission clerkings including physical examination and investigations and discharge notifications. |
| Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions) | The post is Mon-Friday 9am-5pm on site at Lambeth Hospital. The trainee will work under the supervision of Dr Jonathan Beckett, Consultant Psychiatrist. There is a system of provision of both individual supervision focusing on meeting the trainee's educational needs and assessing the trainee to ensure that competencies are being attained, as well as group supervision to allow for the development of a knowledge base relevant to the stage of training. There are no on call commitments in psychiatry but medical on calls may be available at the discretion of the employing Trust. |
| Local education provider (LEP) / employer information | Guy's and St. Thomas' NHS Foundation Trust is one of the largest Trusts in the NHS and provides a full range of services to the local population and also to patients from further afield, both nationally and internationally. |

*It is important to note that this description is a typical example of the placement and may be subject to change.

| | |
|--|--|
| Trust | Guy's and St Thomas' NHS Foundation Trust |
| Site | Lambeth Hospital, 108 Landor Road, London SW9 9NT |
| Trainee Information System (TIS) Post Code (and local post number if known) | LDN/RJ122/091/F1/001 |
| Placement details (i.e. the specialty and sub-specialty) | Psychiatry |
| Department | Psychosis CAG |
| Type of work to expect and learning opportunities | Our patients present with a range of psychopathology, most commonly some form of psychotic illness. A smaller number have primary diagnoses of personality disorder. The majority are under section of the Mental Health Act. We aim to address both physical as well as mental health during admission, seeing the two as intrinsically related. This post therefore, provides an opportunity to develop some skills and confidence in the assessment & management of both physical and mental health problems in a population of patients with severe mental illness. This includes day to day medical management alongside working with our pharmacist, OT, psychologist and nursing team. We are continuously seeking to improve what we do, both in terms of efficiency and patient experience. If you are interested in quality improvement work you will be encouraged to get involved in some aspect of this or supported to develop your own initiative. You are also very welcome to spend time with other members of the team to experience what they do e.g. by attending a music therapy or art therapy group, going on a home visit with our OT or joining our gym instructor to see how patients can benefit from a variety of therapeutic approaches beyond the medical / biological. You are also encouraged to shadow the GP VTS's women's health group and the CT's medication group run jointly with our pharmacist. |
| Where the placement is based | Nelson ward, Lambeth Hospital. Nelson ward is an 18- bedded unit for women in Lambeth. Female acute, general adult psychiatry. |
| Clinical supervisor(s) for the placement | Dr Nicola Byrne is the clinical supervisor for the placement. You will have weekly supervision. This will alternate between supervision with the consultant and the ST. You are encouraged to think in advance as to how you want to use this time. During supervision current clinical cases of interest and the development of your clinical skills and knowledge will be discussed, as well as broader topics such as ward management and ward systems, depending on your interest. You will also be encouraged to reflect on your role as a doctor within the multidisciplinary team, and the challenges and opportunities that arise with team working. |
| Main duties of the placement | <ol style="list-style-type: none"> 1) Assist the CT with clerking of patients and compiling psychiatric assessments and formulations, under supervision. This will include basic risk assessment. 2) Assist the GP VTS trainee in physical health care screening for all patients, management of any identified physical health concerns & secondary care liaison as required. 3) Alongside both trainees, ensure weekly comprehensive medical review documentation is up to date for each client and discharge emails are completed within a day of discharge. |

| | |
|---|--|
| <p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p> | <p>The structure of each day Monday – Friday on the ward is similar i.e. the day starts with the consultant led MDT handover, followed by morning patient reviews. Across the week the CT, GP trainee and FT rotate between participating in clinical reviews with the consultant or ST, and working through the day’s medical tasks. After lunch there are various team meetings (case discussion group; quality improvement; staff reflection group) with time available for supervision, new patient assessments and clinical record keeping. There are no on call commitments associated with the psychiatry post although it may be expected that the potholder is part of the general medicine on calls.</p> |
| <p>Local education provider (LEP) / employer information</p> | <p>Guy’s and St Thomas’ is one of the largest hospital trusts in the country, with a staff of almost 12,500, a turnover of over £1 billion and 900,000 patient contacts a year. | Trust | Guy's and St Thomas' NHS Foundation Trust |
| Site | St Thomas' Hospital |
| Trainee Information System (TIS) Post Code (and local post number if known) | LDN/RJ121/052/F1/002 |
| Placement details (i.e. the specialty and sub-specialty) | Gastroenterology |
| Department | Gastroenterology |
| Type of work to expect and learning opportunities | Gastroenterology inpatients comprising two subspecialties – luminal (predominantly Inflammatory Bowel Disease (IBD)) and liver (including liver, biliary, and obesity). The Gastroenterology Department is a tertiary referral centre for IBD and ERCP/endoscopic ultrasound (EUS). The post entails working closely with the abdominal surgery department in managing complex IBD patients. The post will provide exposure to complex IBD and hepatobiliary conditions. The Foundation doctor will be encouraged to present cases for discussion at the weekly IBD and benign pancreatic biliary MDMs. Weekly Trust F1 lecture teaching sessions take place on Fridays. |
| Where the placement is based | Department of Gastroenterology, St Thomas' Hospital |
| Clinical supervisor(s) for the placement | Dr Peter Irving |
| Main duties of the placement | Daily ward rounds with either consultant or SpR. Compiling and daily updating of the inpatient list. Clerking of elective admissions (endoscopic procedures, intragastric balloons for obesity treatment). Attending weekly radiology, IBD and cancer MDMs. Attending and presenting at the monthly gastroenterology audit meetings. |
| Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions) | Daily ward rounds – often two consultant-led rounds each day ('liver' and 'luminal'). Ward work following the ward rounds. Clerking of elective admissions (using the new clerking proforma). Attending MDMs as above. |
| Local education provider (LEP) / employer information | Guy's and St. Thomas' NHS Foundation Trust is one of the largest Trusts in the NHS and provides a full range of services to the local population and also to patients from further afield, both nationally and internationally. |

| Placement details (i.e. the specialty and sub-specialty) | General Adult Liaison Psychiatry |
| Department | Liaison Psychiatry at Guy's and St Thomas' Hospital |
| Type of work to expect and learning opportunities | Assessment and management of patients presenting with mental health problems in various departments of the general hospital such as the Emergency Department, medical and surgical wards and outpatient clinics. The trainee will be able to learn psychiatric competencies such as taking a history, carrying out a mental state examination, cognitive assessment, risk assessment, formulating a management plan and writing up a psychiatric assessment. |
| Where the placement is based | Guy's Hospital and St Thomas' Hospital |
| Clinical supervisor(s) for the placement | Dr Alastair Santhouse, Dr Sri Perecherla |
| Main duties of the placement | To assess patients presenting with psychiatric problems to the general hospital, to gather collateral information, to discuss the case with a senior colleague (consultant or registrar), to formulate a management plan under supervision and to liaise with other services and agencies to facilitate safe discharge. The trainee will be expected to maintain good medical records, to prescribe safely, to be aware of medico-legal issues and to always act within their competence. |
| Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions) | The trainee will work 9-5 in a variety of settings including the Emergency Department, medical wards and in outpatient clinics under the supervision of a senior colleague. There will be no on call commitments in psychiatry (though on calls in medicine may be available at the discretion of the employing Trust) |
| Local education provider (LEP) / employer information | Guy's and St Thomas' is one of the largest hospital trusts in the country, with a staff of almost 12,500, a turnover of over £1 billion and 900,000 patient contacts a year. The Trust comprises two of London's oldest and best known teaching hospitals. The hospitals have a long history, dating back almost 900 years, and have been at the forefront of medical progress and innovation since they were founded. Both hospitals have built on these traditions and continue to have a reputation for excellence and innovation. We are part of King's Health Partners Academic Health Sciences Centre (AHSC), a pioneering collaboration between one of the world's leading research-led universities and three of London's most successful NHS Foundation Trusts. Our AHSC is one of only five in the UK. It consists of King's College London, and Guy's and St Thomas', King's College Hospital and South London and Maudsley (SLAM) NHS Foundation Trusts. King's Health Partners includes seven hospitals and over 150 community based services, is responsible for seeing 2 million patients each year, has 25,000 employees and 19,500 students, and a £2 billion annual turnover. It brings together the best of basic and translational research, clinical excellence and world-class teaching to deliver ground-breaking advances in physical and mental healthcare. See www.kingshealthpartners.org |

| Placement details (i.e. the specialty and sub-specialty) | Renal |
| Department | Nephrology and Transplantation |
| Type of work to expect and learning opportunities | Mostly ward based management of patients with the whole spectrum of kidney disease including acute and chronic kidney disease, haemodialysis, peritoneal dialysis and transplant patients. Transplant experience is both peri-operative and in longstanding transplant recipients: both kidney and pancreas. |
| Where the placement is based | The F1 should divide their time equally between Richard Bright ward (predominantly transplant) and Patience Ward (predominantly nephrology). There will also be 1 week attached to home therapies (home haemo and PD). There may also be opportunities to attend outpatient clinics. |
| Clinical supervisor(s) for the placement | Dr David Game |
| Main duties of the placement | Admission, inpatient management and discharge of patient groups outlined above. The F1 will work alongside the renal CTs. |
| Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions) | Typical working pattern in this post e.g. ward rounds, clinics, theatre sessions These posts are supernumary and there is no obligatory out-of hours' rota and therefore there is no pay banding supplement. If the trainee would like to contribute to weekend work, there may be opportunities to do so, with payment pro-rata. The working day is 0830-1730 Monday-Friday. As these hours exceed the weekly limit, you are given extra days leave to compensate (6+6=12). The usual pattern would be a ward round in the morning followed by completing tasks and assessing new admissions. |
