

Foundation Programme
Individual Placement Descriptor*

Trust	Whittington Health NHS Trust
Site	Whittington Hospital, London
Trainee Information System (TIS) Post Code (and local post number if known)	N19 5NF
Placement details (i.e. the specialty and sub-specialty)	F1 General Surgery
Department	The Department of General surgery at the Whittington Hospital and consists of 10 consultants. The surgical specialties covered include emergency surgery, bariatric surgery, benign upper GI surgery, coloproctology, breast and vascular surgery. The F1 covers breast and vascular patients on ad hoc basis.
Type of work to expect and learning opportunities	Ward based perioperative care for elective and emergency patients. Outpatient general surgery clinics, Emergency (on – call) cover Teaching and Audit. All the surgical F1 doctors are expected to attend to the ward based care of their allocated team's patients. There is also a rota for emergency on call duties, where F1's are expected to assist the Surgical Specialist Registrar in A&E. Theatre attendance as well as pre-assessment of patients who have elective procedures are also expected.
Where the placement is based	The surgical wards at the Whittington: most of the elective admissions are on Mercer Ward. Other surgical wards include Coyle and Thorogood (mainly orthopaedics). Surgical foundation doctors are responsible for all surgical patients managed by their teams.
Clinical supervisor(s) for the placement	Each F1 will have assigned to them a Clinical Supervisor as well as an Educational Supervisor. Both posts may be held by the same consultant. Mr A Alhamdani, Mr P Sufi, Mr H Mukhtar, Mr E Chodha , Mr A Oshowo,Mr C Parmar and Mr H Lee
Main duties of the placement	The F1 doctor is responsible alongside other staff, for the care of the patients on the surgical wards. It is highly important to maintain and keep a correct and updated patient's medical record on a regular basis. This should be done in conjunction with the SpR. There is a daily morning ward round which the F1 is expected to attend and scribe at. The F1 is expected to complete all the jobs generated from the ward round. The Core Trainees and / or SpR are always available for secondary support of the F1. Where this is not possible, the Clinical Supervisor must be informed as soon as possible. The F1 when on post take and on-call is expected to attend mandatory handovers daily and expected to keep patient worksheets and handover sheets up to

	<p>date. They are to carry out post take ward round with consultants daily and assist Emergency team in management of non-elective patients in A&E and on wards.</p> <p>Theatre attendance is highly encouraged but this may not be possible on a regular basis due to ward work schedule.</p> <p>There is also requirement to attend the OPD. This provides a useful educational experience and the F1 will be able to do their work based assessments at these opportunities.</p> <p>The vascular and breast cover may be required in exceptional circumstances. F1 will be asked to assist should there be any such need.</p> <p>You will be expected to attend the weekly departmental teaching (surgical forum).</p> <p>There are also regular MDT meetings and monthly morbidity and mortality meeting. The F1 are expected to attend.</p>
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Daily: 08:00 hrs to 16:00 hrs (work pattern adjusted according to the team allocation based on contractual hours)
Local education provider (LEP) / employer information	<p>The Whittington Hospital, part of Whittington Health, is a medium sized teaching hospital.</p> <p>The hospital is proud of its tradition of providing high quality medical education. We seek to provide academic and clinical excellence without losing sight of our role as a community based hospital supporting our local GPs.</p> <p>We are located in Archway, North London, and provide hospital and community care services to 500,000 people living in Islington and Haringey as well as other London boroughs including Barnet, Enfield, Camden and Hackney. As one organisation providing both hospital and community services, we are known as an 'integrated care organisation'.</p>

Trust	Whittington Health NHS Trust
Site	Whittington Hospital, London
Trainee Information System (TIS) Post Code (and local post number if known)	N19 5NF
Placement details (i.e. the specialty and sub-specialty)	F1 Endocrinology and Diabetes
Department	There are four endocrinology and diabetes consultants, who have general medical inpatients covering 'Winter pressures' admissions. This usually lasts for 8 months of the year. There are three registrars (two diabetes and endocrinology SpRs and one renal SpR), a GP trainee and an F1. F1s rotate with MAU (Acute Medicine), spending approximately 2 months on the general medical ward and 2 months on MAU, subject to requirements and inpatient numbers. In the 4 months when the DM/Endo Consultants have no inpatients, the FY1 will be attached to MAU or COOP team.
Type of work to expect and learning opportunities	<p>You will be the link between the team and the inpatients as you will see them regularly (registrars and consultants work on a rota covering the ward). You are also the link between the family and the medical team as families aren't often on the ward during ward round but will be later in the day. You will be updating the list and ensuring the plans the consultant and senior doctors' advice get put into action, so you may be interacting with many departments in the hospital. Most of the inpatients are elderly so you will therefore attend MDTs to discuss discharge planning weekly and daily reviews of OT/PT progress.</p> <p>The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit patient care • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general

	<p>medical problems</p> <ul style="list-style-type: none"> • Educate patients effectively • Become life-long learners and teachers.
Where the placement is based	Whittington Hospital, London
Clinical supervisor(s) for the placement	Dr Rossi, Dr Barnard, Dr Anthony, Dr Waung
Main duties of the placement	<ul style="list-style-type: none"> • Care of inpatients under care of the firm, includes seeing all patients daily, requesting and checking bloods and other investigations, organizing the ward round and writing in medical notes. • Also medical on calls and ward cover. On call-clerk patients in and under supervision of the registrar and instigate initial management. <p>Ward cover - you are responsible for the care of the elderly wards. You may be handed over jobs and patients to review.</p>
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>Ward round at 09:00 every day.</p> <p>Mon: Registrar ward round Tues: Consultant ward round, lunchtime teaching / endocrinology meeting Wed: FY1&SHO/SpR ward round, Grand round Thurs: FY1&SHO/SpR Ward round, lunchtime teaching Fri: Consultant ward round</p> <p>On call requirements (general medicine on call): 1 in 16 on take 1 in 16 weekday evening ward cover 1 in 16 weekend take 2 in 16 weekend ward cover 1 in 16 Saturday post take</p> <p>No night duties.</p>

Trust	Whittington Health NHS Trust
Site	Whittington Hospital, London
Trainee Information System (TIS)	N19 5NF
Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 Psychiatry Assessment Ward and Early Intervention Service
Department	<p>Sapphire ward (2 F1 posts).</p> <p>Post 1 - Sapphire ward (3 days) Islington Crisis Team (1 day) MAU (1 day). Clinical Supervisor: Dr Janet Obeney Williams (consultant on Sapphire ward and Islington Crisis Team).</p> <p>Post 2 - Sapphire ward (3 days) Camden EIS (1 day) MAU (1 day). Clinical Supervision: Dr Petros Lekkos (consultant at EIS). On Sapphire with Dr Senem Leveson.</p> <p>These posts are based on Sapphire Assessment Ward, Highgate Mental Health Centre and the trainees will work within a multidisciplinary team. This is the busy 16-bed acute admission ward for Camden and Islington and averages about 100 admissions a month. One post also inputs into the Early Intervention Service (EIS) one day a week with Dr Petros Lekkos, which is community-based service dedicated to the assessment and management of people with a first episode of psychosis. The other post also inputs into Islington Crisis Resolution and Home Treatment Team one day per week.</p> <p>On Sapphire the medical team consists of two consultant psychiatrists: Dr Janet Obeney-Williams and Dr Senem Leveson, three Specialist Trainees (ST4-6) and two Core Trainees (CT1-3), alongside the two F1 doctors. There is a multi-disciplinary team comprising a Ward Manager, Nursing staff, Health Care Assistants, OTs, Psychologist, Pharmacist and Administrative Staff. There is a consultant-led ward round on every weekday. There is similar MDT set up at EIS and Islington Crisis Team</p>
Type of work to expect and learning opportunities	When based at the in-patient ward, the F1 will be involved in assessing and monitoring patients admitted under the team's care. In the EIS, the F1 will participate in team activities including joint assessments, home visits and clinic based

	<p>appointments as well as the team meeting.</p> <p>The overall educational objectives of the placement are to enable the F1 to:</p> <ul style="list-style-type: none"> • Take a history and mental state examination • Perform a risk assessment • Produce a psychiatric formulation • Keep accurate and relevant medical records • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit patient care • Act in a professional manner at all times • Cope with the legal and ethical issues that arise when treating psychiatric patients • Become lifelong learners and teachers
Where the placement is based	Sapphire Ward, Highgate Mental Health Centre, Dartmouth Park Hill N19 5NX EIS, 4 Greenland Road NW1 0AS
Clinical supervisor(s) for the placement	Dr Janet Obeney-Williams and Dr Petros Lekkos
Main duties of the placement	When based at the in-patient ward, the F1 will ensure that all new patients admitted under the team's care are fully assessed, including an assessment of their physical state, so that a preliminary formulation of their problems is made. All in-patients should be reassessed as necessary and an update of their mental state made before each main ward round. The F1 will attend ward rounds and present new cases to the consultant. They will be involved in arranging and interpreting the results of various investigations. They will be involved in discharge planning. In the EIS you will participate in joint assessments, and out-patient clinics. Under the supervision of a clinical supervisor, they will prescribe treatments for the patients that they are working with. They will refer them promptly to other professionals as directed by their clinical supervisors.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Mon-Fri 9am-5pm; NB There is no on-call for this post. 1 hour of 1:1 Consultant supervision.
Local education provider (LEP) / employer information	The employer will be Whittington NHS Trust but the post will be based in Camden & Islington NHS Foundation Trust which was established on 1st April 2008. Previously (since 1st April 2002) it had been one of the first Mental Health and Social Care Trusts in the country. The Trust is responsible for the provision of in-patient and community mental health services within the London Boroughs of Camden and Islington. This includes general adult mental health services (including rehabilitation, EIS, crisis and AOT services), services for ageing and mental health, an inpatient service for people with learning disabilities and substance misuse services.

*It is important to note that this description is a typical example of the placement and may be subject to change.
