Placement details (i.e. the specialty and sub-specialty)	General Surgery
Department	Surgery
Type of work to expect and learning opportunities	Busy district general hospital with both elective and emergency general surgical patients. Ward based work with learning opportunities. You are able to clerk in patients in A&E during on-calls and discuss cases with senior members of the team. You have the opportunity to attend clinics and theatre. Learning opportunities at daily morning handovers, ward rounds and MDT meetings.
Where the placement is based	Cheerful Sparrows, QEQM
Clinical supervisor(s) for the placement	TBC
Main duties of the placement	The main duties of the placement are to provide pre-op and post-op care to elective and emergency General Surgical patients.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	A typical day would start with a ward round lead by a senior doctor. You make a list of jobs and complete these during the day. This would usually include ordering investigations, discussing radiological requests with Consultant Radiologists, taking blood, acting on blood results and investigations and seeing sick patients. When your jobs are complete you can help the other surgical teams, attend theatre or attend clinic. In a typical week you are on call 2-3 times. For one on-call you get the opportunity to clerk in patients in A&E. For other on-calls you are based on the wards reviewing sick patients and completing outstanding day jobs from other surgical teams. There are two structured teaching sessions a week in the Education Centre and there is extra FY1 surgical teaching sessions every Wednesday for the surgical team.

Placement details (i.e. the specialty and sub-specialty)	Emergency Medicine (N/A)
Department	A&E
Type of work to expect and learning opportunities	Opportunity to assess the undifferentiated patient by taking a focused history and performing an accurate clinical examination. You would be able to utilise the necessary investigations to make a list of differential diagnosis related to the patient's condition. It allows you to re-enforce all the skills learnt from medical school and F1/F2 jobs to re-enforce your knowledge and develop new skills. It allows for practice development in managing fractures and dislocation, surgery skills and allows you to see a broad spectrum of medical/surgical conditions in adults and children.
Where the placement is based	QEQM – Margate
Clinical supervisor(s) for the placement	TBC
Main duties of the placement	You are mainly based in majors but there is ample opportunity to gain resus skills and to deal with minor injuries. Night shifts included. A demanding and busy rotation.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Varying rota. Day shifts are 8am – 6pm, 10am – 8pm, 2pm – 10pm and 3:30pm – midnight. Night shift hours are 10pm – 8:15am. Work 1 in 3 weekends.

Programme Codes	KSS/RVV09/F1/003, KSS/RVV09/F1/002, KSS/RVV09/F1/001,
Placement details (i.e. the specialty and sub-specialty)	Intensive Care Medicine (N/A)
Department	Intensive care
Type of work to expect and learning opportunities	<p>The ITU in Margate is a busy unit, caring for a wide variety of acutely ill patients from across the Southeast. As an FY1 you are expected to work as part of the team to ensure good communication between all specialties involved in the patients care, ensure that all investigations and management plans are up to date and followed through.</p> <p>The unit is a great place to get hands on experience in practical procedures such as CVP lines, arterial lines and intubation. In addition there are also opportunities to attend theatre to shadow the on call anaesthetic team.</p> <p>As the ITU FY1, you are expected to attend all cardiac arrests, and emergency calls.</p>
Where the placement is based	Intensive care unit
Clinical supervisor(s) for the placement	TBC
Main duties of the placement	
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	There are 2 consultant lead ward rounds every day. There is no allocated theatre or clinic times but depending on the workload on the ITU unit, you can arrange to attend theatre with the anaesthetic team. During the day there are opportunities to review medical and surgical referrals as well as cardiac arrest calls.
Local education provider (LEP) / employer information	'East Kent Hospitals University NHS Foundation Trust (EKHUFT) is one of the largest hospital trusts in the country, with more than 6,000 staff serving a population exceeding 700,000 and provides integrated patient care in East Kent with over 80 clinical specialties. Individual Placement Descriptor*

Trust	East Kent Hospitals University NHS Foundation Trust
Site	Queen Elizabeth The Queen Mother Hospital
Trainee Information System (TIS) Post Code	KSS/RVV09/800/F2/003
Programme Codes	KSS/RVV09/F2/017 KSS/RVV09/F2/006 KSS/RVV09/F2/004
Placement details (i.e. the specialty and sub-specialty)	General Practice (N/A)
Department	Primary Care
Type of work to expect and learning opportunities	A fantastic opportunity to develop skills in initial assessment of patients presenting to health care services. Must develop good prioritisation skills, and recognise the importance of opportunistic health promotion in primary care.
Where the placement is based	Community General Practices in East Kent
Clinical supervisor(s) for the placement	General practitioner partner.
Main duties of the placement	Delivering primary care services to a wide range of service users, children through to geriatrics, and arranging appropriate further investigation, referral or follow up.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	Working hours – generally 6 hours of clinic a day, usually between 9-6 but may finish later. Allowance for compulsory FY2 teaching Thursday afternoons. Specific GP FY2 teaching currently takes place on Wednesday afternoons. Up to three sessions available for audit, taster days or special interest days. If these are not arranged by the individual then extra clinics will be scheduled. Minimum six clinics – initially 30 minute consultations, reducing to 20 minutes after 2-4 weeks. Although consulting on your own, each FY2 doctor is allocated a clinical supervisor who should have blocked sessions in their clinic to allow for supervision and ad hoc teaching. It is an opportunity to see a huge range of conditions both acute and chronic, serious and menial. Great prescribing practice and experience in managing chronic conditions. Also involves appropriate referral to secondary care, or other community services.
Local education provider (LEP) / employer information	East Kent Hospitals University NHS Foundation Trust (EKHUFT) is one of the largest hospital trusts in the country, with more than 6,000 staff serving a population exceeding 700,000 and provides integrated patient care in East Kent with over 80 clinical specialties. Individual Placement Descriptor***

Trust	East Kent Hospital University NHS Foundation Trust
Site	Kent and Canterbury Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	KSS/RVVKC/027/F1/00?
Placement details (i.e. the specialty and sub-specialty)	Urology
Department	There are 7 consultants, and a number of the sisters and nurses have been working in the department for many years. It is the only hospital in the south of England to have a Da Vinci Robot to perform radical prostatectomies . Along with the high number of consultant and top of the range robotic equipment East Kent Hospital University is a specialist urology centre. The ward is catered for the very high turnover of patients, and nurses are trained and experienced enough to recognise urological emergencies and take appropriate action i.e. bladder scan, bladder washout etc.
Type of work to expect and learning opportunities	Typical day starts at 7:45 ensuring list is updated, patients for theatre that morning have had G&S blood clotting and any urgent cannulas. At 8am there is handover from the night teams for new admissions, which we then go and see. After that we then start the ward round, usually split into cold (elective) ward round and hot (emergency) ward round with the registrar and/or on-call consultant often during the WR some of the other consultants will come to see their patients and one of the house officers will peel in from the main ward round to join them. Then after the ward round jobs (including catheterising, cannulating, discharges, managing urosepsis, urinary retention, referrals, arranging appropriate antibiotic treatment, addressing concerns of families, arranging imaging etc) are completed in order of priority whilst addressing emergencies that may come up on the ward throughout the day. There will be exposure to Urological emergencies and management of Urological/surgical patients both pre and post operatively. Once every month there is a morbidity and mortality meeting for the previous month– a powerpoint set up by the house officers of all the patients that have had post op complications or passed away in the previous month. Complications must be recorded from the ward round.
Where the placement is based	Kent and Canterbury Hospital - Clarke Ward (Emergency Admissions) and Kent Ward (electives).
Clinical supervisor(s) for the placement	Mr Simoes

<p>Main duties of the placement</p>	<p>EDN, catheter insertion male and female, cannulas, bloods, referrals, arranging imaging and ensuring senior review, blood transfusions, assessing urosepsis and managing appropriately, urinary retention, renal colic and hameaturia – management – when to intervene, prescription charts, fluid management, palliative care management.</p>
<p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Mon:8-5pm Ward Round Tues: 8-5pm Ward Round. Protected F1 teaching 1pm-2pm Wed: 8-5pm Ward Round Thursday: 8-5pm Ward Round Protected F1 teaching 1pm-2pm Friday: Medical Directorate teaching 1pm-2pm. 8-5pm Ward Round Sat: 8am-8pm (handover starts at 8pm) Sun: : 8am-8pm (handover starts at 8pm) – one house officer covers all of surgery</p>
<p>Local education provider (LEP) / employer information</p>	<p>The Trust is one of the largest in the country, employing over 6500 staff with many part-time employees. The Trust serves a population of over 720,000 . The Trust has the vision to be known throughout the world as one of the top ten hospitals in England and the Kent hospital of choice for patients and those close to them. Trust	East Kent Hospital University NHS Foundation Trust
Site	Kent and Canterbury Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	KSS/RVVKC/015/F1/00?
Placement details (i.e. the specialty and sub-specialty)	Renal Medicine
Department	<p>The department consists of 10 renal consultants, 3-4 registrar's and 5 junior doctors.</p> <p>In addition to the doctors, the department has its own renal pharmacist, dietician, and a number of specialist nurses (e.g. peritoneal dialysis nurses, transplant nurses, vascular access nurses, haemodialysis nurses etc...) in addition to the standard ward staff.</p> <p>The department is a friendly and close-knit team. Many of the patients are known to the staff having been patients for many years and because they attend regularly for dialysis.</p>
Type of work to expect and learning opportunities	<p>A typical working day starts with full team handover at 9am then a Ward round. The junior doctor is expected to produce an updated list before the round and to have everything ready before the round.</p> <p>There are 2 Consultant ward rounds each week and 2 Registrar led ward rounds. On Wednesday there is a Radiology meeting at 8.30am, followed by a junior ward round for the chronic team and registrar led ward round for acute team.</p> <p>Ward rounds are often a great learning opportunity since juniors are expected to present patients and to know the recent test results as well as trends. Discussion and ideas are encouraged.</p> <p>There is often a huge diversity of clinical presentations on the ward. You can encounter anything from a marathon runner with acute renal failure secondary to rhabdomyolysis, or someone with myeloma, or a transplant patient with sepsis, or a dialysis patient with an acutely ischaemic limb. This variety presents fantastic learning opportunities.</p> <p>The ward also has procedure room where lines for dialysis are inserted. As a junior you will have the chance to place central lines (for temporary dialysis/plasma exchange) and to remove tunnelled lines.</p>

Where the placement is based	The department effectively consists of 3 clinical areas; Marlowe ward (which has an 'acute' end and a 'chronic' end), the Thomas Beckett Dialysis Unit, and outpatients. As a junior doctor you will work primarily on the ward, patients will often be admitted from either outpatients or the dialysis unit. You may also be asked to review patients whilst they are on dialysis in the Thomas Beckett unit.
Clinical supervisor(s) for the placement	Dr Kingston
Main duties of the placement	In addition to standard ward duties (organising the ward round, taking bloods, writing discharge summaries etc...) you will also be expected to clerk in patients who are admitted to the ward. This is a common place event, and often you will be the first doctor they see on admission as many of the patients come straight onto the ward (bypassing Emergency Care Centre) having either been referred in by a specialist nurse, from dialysis, clinic or by a consultant at another hospital. Therefore there are a lot of opportunities to practice clerking and initiating management.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>Mon: 9-5pm ward round Tues: 9-5pm ward round and Protected F1 teaching 1pm-2pm. Wed: 9-5pm ward round. 8.30 Vascular/Renal radiology meeting. 1-2pm department teaching. (you will be required to do a presentation in this placement at this teaching or journal club). Thurs: 9-5pm ward round and Protected F1 teaching 1pm-2pm Friday: 9-5pm ward round and medical directorate lunchtime teaching</p> <p><i>On call requirements:</i> Same as Medicine on-call 1:11.</p>
Local education provider (LEP) / employer information	<p>The Trust is one of the largest in the country, employing over 6500 staff with many part-time employees. The Trust serves a population of over 720,000 .</p> <p>The Trust has the vision to be known throughout the world as one of the top ten hospitals in England and the Kent hospital of choice for patients and those close to them.</p> <p>The EKHUFT's mission is to provide safe, patient focused and sustainable health services with and for the people of Kent. Site	Kent and Canterbury Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	KSS/RVVKC/015/F2/001 KSS/RVVKC/015/F2/002
Placement details (i.e. the specialty and sub-specialty)	Renal
Department	<p>The department consists of 10 renal consultants, 3-4 registrar's and 5 junior doctors.</p> <p>In addition to the doctors, the department has its own renal pharmacist, dietician, and a number of specialist nurses (e.g. peritoneal dialysis nurses, transplant nurses, vascular access nurses, haemodialysis nurses etc...) in addition to the standard ward staff.</p> <p>The department is a friendly and close-knit team. Many of the patients are known to the staff having been patients for many years and because they attend regularly for dialysis.</p>
Type of work to expect and learning opportunities	<p>A typical working day starts with a Ward round (9.00am). The junior doctor is expected to produce an updated list before the round and to have everything ready before the round.</p> <p>There are 2 Consultant ward rounds each week and 2 Registrar led ward rounds. On Wednesday there is a junior ward round for the chronic team and registrar led ward round for acute team.</p> <p>Ward rounds are often a great learning opportunity since juniors are expected to present patients and to know the recent test results as well as trends. Discussion and ideas are encouraged.</p> <p>There is often a huge diversity of clinical presentations on the ward. You can encounter anything from a marathon runner with acute renal failure secondary to rhabdomyolysis, or someone with myeloma, or a transplant patient with sepsis, or a dialysis patient with an acutely ischaemic limb. This variety presents fantastic learning opportunities.</p> <p>The ward also has procedure room where lines for dialysis are inserted. As a junior you will have the chance to place central lines (for temporary dialysis/plasma exchange) and to remove tunnelled lines.</p>
Where the placement is based	<p>The department effectively consists of 3 clinical areas; Marlowe ward (which has an 'acute' end and a 'chronic' end), the Thomas Beckett Dialysis Unit, and outpatients. As a junior doctor you will work primarily on the ward, patients will often be admitted from either outpatients or the dialysis unit. You may also be asked to review patients whilst they are on dialysis in the Thomas Beckett unit.</p>
Clinical supervisor(s) for the placement	Varies between the Renal Consultants

<p>Main duties of the placement</p>	<p>In addition to standard ward duties (organising the ward round, taking bloods, writing discharge summaries etc...) you will also be expected to clerk in patients who are admitted to the ward. This is a common place event, and often you will be the first doctor they see on admission as many of the patients come straight onto the ward (bypassing Emergency Care Centre) having either been referred in by a specialist nurse, from dialysis, clinic or by a consultant at another hospital. Individual Placement Descriptor***

Trust	East Kent Hospitals University NHS Foundation Trust
Site	Queen Elizabeth The Queen Mother Hospital
Trainee Information System (TIS) Post Code	KSS/RVV09/021/F1/?
Programme Codes	KSS/RVV09/F1/? KSS/RVV09/F1/? KSS/RVV09/F1/?
Placement details (i.e. the specialty and sub-specialty)	General Surgery
Department	Surgery
Type of work to expect and learning opportunities	Busy district general hospital with both elective and emergency general surgical patients. Your main duty is ward based as well as helping with post-taking patients after an on-call. Occasionally, you are able to clerk in patients in A&E during on-calls and discuss cases with senior members of the team. You have the opportunity to attend clinics and theatre. Learning opportunities at daily morning handovers, ward rounds and MDT meetings.
Where the placement is based	Cheerful Sparrows Wards, QEQM
Clinical supervisor(s) for the placement	TBC
Main duties of the placement	The main duties of the placement are to provide pre-op and post-op care
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	A typical day would start with a ward round lead by a senior doctor. You make a list of jobs and complete these during the day. This would usually include ordering investigations, discussing radiological requests with Consultant Radiologists, taking blood, acting on investigation results and seeing sick patients /escalate them to senior review if appropriate. When your jobs are complete you can help the other surgical teams, attend theatre or attend clinic. For on-calls, you are based on the wards reviewing sick patients and completing outstanding day jobs from other surgical teams. There are two F1 structured teaching sessions a week in the Education Centre and surgical teaching sessions every Wednesday for the surgical team.
Local education provider (LEP) / employer information	'East Kent Hospitals University NHS Foundation Trust (EKHUFT) is one of the largest hospital trusts in the country, with more than 6,000 staff serving a population exceeding 700,000 and provides integrated

	patient care in East Kent with over 80 clinical specialties. Established on 1st April 1999, EKHUFT has three acute hospitals at Canterbury, Margate and Ashford, with smaller hospitals in Dover and Folkestone.

Trust	East Kent Hospitals University NHS Foundation Trust
Site	Queen Elizabeth The Queen Mother Hospital
Trainee Information System (TIS) Post Code	KSS/RVV09/011/F1/004
Programme Codes	KSS/RVVKC/F1/019, KSS/RVV09/F1/020, KSS/RVVKC/F1/021,
Placement details (i.e. the specialty and sub-specialty)	Geriatric Medicine (N/A)
Department	General and Geriatric Medicine
Type of work to expect and learning opportunities	<p>Ward Round, Ward jobs, managing acutely unwell patients, discharge summaries, working with the MDT: Physios, Social Services, OTs. When on call, clerking patients on emergency admission as part of a team of doctors, and thus learning to manage various medical emergencies, as well as attending medical emergencies and cardiac arrest calls.</p> <p>This is an acute frailty ward with a high turnover. A variety of cases present with acute and chronic conditions that will have a consultant review at least every other day. You will be expected to attend all ward rounds and care for patients to whom you are allocated. This will involve carrying out your own examinations and making a management plan during ward rounds which are not consultant lead. Ward jobs include making referrals, ordering, sometimes taking and chasing bloods, doing ABGs, requesting and chasing tests, speaking with other specialties regarding any relevant issues that arise. Prescribing medications based on blood results, carrying out a septic screen for acutely unwell patients following trust protocol and using trust guidelines.</p> <p>Take opportunities to carry out procedures that arise and examine patients to keep up with medical practice.</p>
Where the placement is based	Mainly based on St Augustine's Ward, QEQM with some patients on outlying wards depending on Consultants post take.
Clinical supervisor(s) for the placement	TBC
Main duties of the placement	Ward Jobs: referrals, bloods, prescribing, speaking to various specialties: micro, radiology, pathology.

<p>Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)</p>	<p>Day is mainly made up of ward round, and completing the jobs arising from this. 1 F1 doing 8.45 – 5.00pm. Usually supported by at least 1 SHO and/or Registrar. Board round begins at 8.45am, during which time nurses will give a run through of all patients and current issues on the ward. This is followed by division of patients between doctors and preparing for a ward round. Consultants will see all new patients, with a re-review at least every other day. This is a good learning opportunity. A catch up board round occurs at approx. 12pm, with different consultants carrying out a MDT meeting at approx. 2pm once a week. Geriatric teaching although optional is recommended to attend on Tuesdays at 1pm, you may be asked to present a topic by your consultant. Grand round teaching on Thursdays at 1pm also optional. F1 teaching is compulsory on Mondays and Wednesday at 1pm.</p>
