Trust	University College London Hospitals NHS Foundation Trust
Site	University College Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F2 Emergency Medicine
Department	Emergency Department
Type of work to expect and learning opportunities	<p>This is an exciting post in a busy central London ED based in a teaching hospital and is ideal for trainees looking for broad generalist training as well as those considering specialist training in Emergency Medicine.</p> <p>You will expect to see a wide range of patients including primary care, injuries including major trauma, older patients, complex medical patients, tertiary care patients and paediatrics. You will be supported to gain competency in a wide range of practical procedures performed in the ED such as suturing, joint reduction, chest drains and point of care ultrasound as well as perfecting your clinical skills.</p> <p>Your ED role is supported by 16-hours of consultant cover per day and 24-hour ST4+ registrar supervision. Your paediatric experience will be enhanced and supported by a team of dedicated paediatric emergency medicine fellows as well as EM registrars, EM and PEM consultants.</p> <p>Departmental teaching is delivered daily from Monday to Friday in multidisciplinary 30-minute micro-sessions which are accessible face-to-face and via MS Teams. We deliver a stimulating and varied program of education including expert specialist speakers, clinical case-based education, paediatrics, in-situ simulation, science and research.</p> <p>Foundation doctors will be supported with a dedicated consultant supervisor and guided to complete the requisite work-based assessments including QI projects.</p> <p>We also have an active research team based in the ED and there is opportunity to engage in an exciting suite of studies being conducted in the ED.</p>
Where the placement is based	University College London Hospital NHS Trust
Clinical supervisor(s) for the placement	<p>Dedicated foundation Consultant supervisors: Rizal Ashroff, Anil Avasthi, Tom Coryndon, Marc Henry (Clinical Lead)</p> <p>Supporting Consultants: Tim Baruah (Divisional Clinical Director), Ravi Dasan, Samer Elkhodair, Manolis Gavalas, James Harnett, Annie McGunniess, Dipak Mistry, Tulsi Patel (PEM), Anusa Sabanathan and Alex Schueler.</p>
Main duties of the placement	Working in all areas of the ED with supervision: majors,

STFS is a collaboration between HE Kent, Surrey & Sussex, HE South London, Brighton & Sussex Medical School, King's College London School of Medicine & St George's University of London

	resuscitation room, paediatrics, urgent treatment centre.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>Full shift rota pattern on a rolling 16-week basis including day shifts, twilight, night and weekend shifts.</p> <p>Maximum 10-hour shift length.</p> <p>Typical intensity: 1 in 8 night shifts (delivered in blocks of 4 and 3) 1 in 2.3 weekends</p> <p>NB: the rota may be subject to change due to COVID19 reconfiguration, but we will endeavour to give as much notice as possible.</p> <p>SDT non-clinical time provided as one full day per month.</p> <p>We support release to Foundation monthly teaching on every second Wednesday of the month (date & time subject to confirmation).</p>
Local education provider (LEP) / employer information	<p>University College London Hospitals NHS Foundation Trust (UCLH), situated in the West End of London, is one of the largest NHS trusts in the United Kingdom and provides first class acute and specialist services both locally and to patients from throughout the UK and abroad.</p> <p>The new state-of-the-art University College Hospital which opened in 2005, is the focal point of the Trust and is the workplace for this post. UCLH was one of the first trusts to gain foundation status.</p> <p>The Trust has an international reputation and a tradition of innovation. Our excellence in research and development was recognised in December 2006 when it was announced that, in partnership with University College London (UCL), we would be one of the country's five comprehensive biomedical research centres</p> <p>Alongside our relationship with the world leading UCL and Royal Free medical school, we enjoy close links with London South Bank and City universities offering the very best in training and education.</p>

Individual Placement Descriptor***

Trust	University College London Hospitals NHS Foundation Trust
Site	University College London Hospitals
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 General Surgery - Breast
Department	The Oncoplastic Breast Unit provides a responsive diagnostic and treatment service. We aim to make the diagnosis at the first outpatient visit and provide seamless onward care. This service is achieved by a multidisciplinary approach between pathology, radiology, surgery, medical oncology and radiotherapy, including care throughout from specialist breast cancer nurses. This service is run by 6 Consultant Oncoplastic Surgeons (not all work full time).
Type of work to expect and learning opportunities	FY1 doctors are an integral part of the team. They spend time on the ward based during the working week but are regularly asked to attend theatres sessions. Ward rounds are carried out daily and duties from these consist of taking bloods/IV cannulas/investigations /discharge planning and treating acutely sick patients. The general surgical department runs an enhanced recovery programme and junior doctors are encouraged to actively participate in the running of this programme. There is a weekly dedicated consultant teaching & management forum during this placement.
Where the placement is based	University College London Hospital
Clinical supervisor(s) for the placement	Ms Joanna Franks
Main duties of the placement	FY1 doctors are responsible, along with the nursing staff, for the daily care of pre and post-operative in-patients. They are part of an on-call twilight rota which extends from 17:00 – 20:00 each weekday. This is designed to ensure outstanding ward jobs are completed before the night team shift starts. Weekend on call is also mandatory. There are 2 zero days following a weekend on-call. The placement includes some dedicated weekdays as the FY1 on the acute general surgical take to provide exposure to emergency surgical admissions

Foundation Programme Individual Placement Descriptor*

Trust	University College London Hospitals NHS Foundation Trust
Site	University College Hospital
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 General Surgery (Lower GI)
Department	A colorectal team consisting of 7 consultants, 4 registrars, a post CCT fellow and 2 CT junior surgeons.
Type of work to expect and learning opportunities	FY1 doctors are mostly ward based during the working week but are encouraged to assist in theatres when possible and will have some dedicated sessions in theatre within the placement. Ward rounds are carried out daily led by a senior member of the team and duties from these consist of taking bloods/IV cannulas/investigations and treating acutely sick patients. The general surgical department runs an enhanced recovery programme and junior doctors are encouraged to actively participate in the running of this programme. There is a dedicated General Surgery educational programme.
Where the placement is based	University College London Hospital
Clinical supervisor(s) for the placement	Colorectal – Mr Cohen, Mr Crosbie, Mr McCullough, Mr Obichere, Mr Wood, Mr Chand and Mr Von Roon
Main duties of the placement	FY1 doctors are responsible, along with the nursing staff, for the daily care of pre and post-operative in-patients. They are part of an on-call twilight rota which extends from 17:00 – 20:00 each weekday. This is designed to ensure outstanding ward jobs are completed before the night team shift starts. Weekend on call is also mandatory. There are 2 zero days following a weekend on- call.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>Mon: Ward Rounds/clinics Tues: Ward Rounds/clinics Wed: Ward Rounds/clinics Thurs: Ward Rounds/clinics - Formal Generic Teaching (pm) Fri: Ward Rounds/clinics – Surgery Education forum Sat: Sun:</p> <p>Work Pattern Days 0800 to 1700, Twilight Shift 0800 to 2030 (one day every week for 5 weeks) Weekend days 0800 to 2030 (3 weekends in 4 months) No Nights, Zero days, 48 hour compliant. On call requirements:</p> <p>SDT to be agreed individually as per Foundation Programme guidance.</p> <p>We provide monthly foundation teaching to all FDs on every second Wednesday of the month (date/time subject to change).</p>

Trust	University College London Hospitals NHS Foundation Trust
Site	UCH Tower
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F1 Rheumatology
Department	<p>The department of Rheumatology at UCLH maintains a world class reputation for both its clinical and research departments. It values teaching and training with consistently high feedback from trainees and has an excellent track record for furthering clinical and research careers in rheumatology.</p> <p>The adult and adolescent rheumatology departments provide a general rheumatology and specialist service for patients with: - systemic lupus erythematosus and other autoimmune rheumatic diseases, inflammatory arthritis, osteoporosis; hypermobility and upper limb and chronic pain. There are also specialist clinics for patients being treated with biological (e.g. anti- TNF and rituximab) therapies. Along with three SpRs (ST3+) and an ST2 the F1 will look after around 5-10 adult and adolescent in-patients and become familiar with the management of a variety of rheumatologic diseases with multiple organ pathology as well as the use of anti-rheumatic drugs including immunomodulation. Consultant ward rounds take place daily providing opportunities to be taught about the clinical features of a variety of uncommon but serious diseases and new treatments used in their management. In addition, there is the opportunity to attend general and adolescent rheumatology clinics.</p> <p>There are weekly musculoskeletal radiology meetings, small group tutorials, rheumatology grand rounds with clinical and research presentations from national and international speakers. In addition there are regular audit and clinical governance meetings.</p>
Type of work to expect and learning opportunities	<p>F1 duties, Ward based</p> <p>The overall educational objectives of the F1 year are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems

	<ul style="list-style-type: none"> • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit patient care • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general medical problems • Educate patients effectively <p>Become life-long learners and teachers Trainees are also encouraged to avail themselves of the opportunities to attend outpatient clinics.</p>
Where the placement is based	UCLH
Clinical supervisor(s) for the placement	Professor Debajit Sen
Main duties of the placement	<ul style="list-style-type: none"> •Providing daily care for Rheumatology inpatients •Attending F1 teaching in Acute Medicine and generic programme. •To participate in the general medical on call rota
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>Mon: 0900 Board Round 0930 Consultant ward round PM Jobs and study/clinic</p> <p>Tues: 0900 Board round (cons) 0930 SpR ward round 1000 CTD cons WR 1530 Adolescent cons WR+MDT</p> <p>Wed: 0900 Board round (cons). 0930 SpR WR PM Jobs and study/clinic</p> <p>Thurs: 0900 – 1000 X ray meeting in seminar room on T2. Both adult and adolescent consultant ward rounds follow the meeting and so the F1 and SHO will divide between the two if both on. 1400 Consultant delivered Registrar/F1/SHO teaching 1500 – 1700 Rheumatology postgraduate meeting (first Thursday of the month clinical governance), includes presentations and external speakers and coffee and biscuits (You will be asked to give a presentation at some point). Discharges from the previous week should also be discussed so bring a copy of the discharges list to the meeting</p> <p>Fri: 0900 Board round (cons) 0930 SpR ward round PM Jobs and study/clinic</p> <p>On call requirements: The rota has annual leave built into it. 1 in 5 weekends.</p> <p>SDT to be agreed individually as per Foundation Programme guidance.</p> <p>We provide monthly foundation teaching to all FDs on every second Wednesday of the month (date/time subject to change).</p>

	<ul style="list-style-type: none"> • Thurs: 0800 – 0900 Haematology Grand Round (once a month / sometime Friday lunchtimes instead) • Thurs: 0800 - 0900 Clinical governance (once a month) <p>Mandatory, protected, bleep free, teaching for F2s occurs every month (currently the 2nd Wednesday) as a single 4 hour session in the morning.</p> <p>Leave: Annual leave is built into the rota.</p> <p>Self-directed learning to be agreed individually as per Foundation Programme guidance (2 hours per week, usually allotted as a half day or full day block).</p> <p>We provide monthly foundation teaching to all FDs on every second Wednesday of the month (date/time subject to change).</p>
<p>Local education provider (LEP) / employer information</p>	<p>University College London Hospitals NHS Foundation Trust (UCLH), situated in the West End of London, is one of the largest NHS trusts in the United Kingdom and provides first class acute and specialist services both locally and to patients from throughout the UK and abroad.</p> <p>The state-of-the-art University College Hospital which opened in 2005, is the focal point of the Trust and is the workplace for this post. UCLH was one of the first trusts to gain foundation status. The new bespoke Cancer and Surgery Hospital, the Grafton Way Building, is due to open in December, which will provide care for the majority of haematology inpatients.</p> <p>The Trust has an international reputation and a tradition of innovation. Our excellence in research and development was recognised in December 2006 when it was announced that, in partnership with University College London (UCL), we would be one of the country's five comprehensive biomedical research centres.</p> <p>Alongside our relationship with the world leading UCL and Royal Free medical school, we enjoy close links with London South Bank and City universities offering the very best in training and education.</p>

*It is important to note that this description is a typical example of the placement and may be subject to change.

*Some arrangements subject to change due to Covid.

**Foundation Programme
Individual Placement Descriptor***

Trust	University College London Hospitals NHS Foundation Trust
Site	University College London Hospitals
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F2 Intensive Care Medicine
Department	<p>Dr D Howell (Divisional Clinical Director), Dr H Burns (Faculty Tutor, Critical Care), Dr Ali Carter (ICM RA) Dr Michael Patterson (Sabbatical) Dr S Clark (Echo lead), Dr J Down (Educational Supervisor), Dr G Bellingan (Medical Director), Dr T Bonnici, Dr Rik Thomas (Educational Supervisor), Dr Najwan Al Saad (Educational Supervisor), Prof M Singer (Educational supervisor), Prof D Walker (Educational Supervisor), Dr S Polhill (Educational Supervisor), Dr D Brealey (Educational Supervisor), Dr N MaCculum (Educational Supervisor), Dr Rashan Haniffa (Educational Supervisor), Dr Nish Arulkumaran (Educational Supervisor), Dr Veronica Marsh (ES), Dr Phil Ward (ES), Dr Anna Petsas (Educational Supervisor), Dr Suzanne Benhalim, Dr Patricia Refinetti, Dr Oliver Boney (ES), Dr Monty Mythen, Dr Rob Stephens (ES), Dr Pete Odor, Dr Isra Hassan, Dr Matt Oliver, Dr Aidan Kingwill, Dr Uta Bellin</p> <p>38 ST3-7 or equivalents (1-3 Pan-Thames ICU trainees, 3 anaesthetic, 32 Clinical fellows ST3-7), 42 F2 - ST2 (6 F2, 3 IMTs, 5 ACCS, 28 trust grades) across four sites.</p> <p>The Department of Intensive Care has a very active multidisciplinary research programme, performed in conjunction with allied academic departments (Bloomsbury Institute of Intensive Care Medicine and the Centre for Anaesthesia). This research extends from bedside to the laboratory, and includes sepsis, tissue oxygenation, ARDS, haemodynamic monitoring, infection and infection control, Ventilatory strategies, weaning, psychology and ethics.</p>
Type of work to expect and learning opportunities	<p>F2 duties, Ward based</p> <p>The overall educational objectives are to provide the trainee with the knowledge, skills and attitudes to be able to</p> <ul style="list-style-type: none"> • Take a history and examine a patient • Identify and synthesise problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues • Use evidence, guidelines and audit to benefit patient care • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with complex general medical problems • Educate patients effectively • Become life-long learners and teachers <p>In particular during this placement, the trainee will develop skills in the identification and acute management of the high-risk and deteriorating patient, and acquire competence in a number of practical procedures including central venous cannulation, arterial cannulation and the interpretation of flow-based cardiac output monitoring.</p> <p>All placements start with a Novice course to introduce them to the training process.</p>
Where the placement is based	University College London Hospitals

STFS is a collaboration between HE Kent, Surrey & Sussex, HE South London, Brighton & Sussex Medical School, King's College London School of Medicine & St George's University of London

Clinical supervisor(s) for the placement	Hannah Burns – training and education lead for department. All trainees get an accredited educational supervisor or clinical supervisor during their department.

Foundation Programme Individual Placement Descriptor*

Trust	University College London Hospitals NHS Foundation Trust
Site	University College London Hospitals
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F2 Medical Oncology
Department	2 F2s each assigned to one of 5 tumour specific firms or Palliative Care team (supported in each firm by 1 CMT or Trust Grade SHO, 1-3 SpRs and 2-3 consultants depending on the size of the firm)
Type of work to expect and learning opportunities	<p>This post offers an FY2 trainee a good grounding in and exposure to the medical management of oncology patients. Specifically for training relevant to the general medical curriculum they will gain experience in the management of the acutely unwell patient, learn how to develop diagnostic and management plans, manage symptoms common to patients from a number of different specialities e.g. advanced pain/symptom control management and gain experience in a range of practical procedures. They will learn important transferrable skills, for example the importance of team working and working within a multi-disciplinary team. The role will facilitate development of good communication skills, both with patients and their families. They will be well supported by teams of SpRs and Consultants with both informal and formal teaching opportunities.</p> <p>The overall educational objectives are to provide the trainee with the knowledge, skills and attitudes to be able to:</p> <ul style="list-style-type: none"> • Take a history and examine a patient at F2 level • Identify and synthesise diagnostic and management problems • Prescribe safely • Keep an accurate and relevant medical record • Manage time and clinical priorities effectively • Communicate effectively with patients, relatives and colleagues within a multidisciplinary working environment • Use evidence, guidelines and audit to benefit patient care • Participate in audit and quality improvement projects • Act in a professional manner at all times • Cope with ethical and legal issues which occur during the management of patients with general medical problems, and be supported in professional development in these areas • Educate patients effectively • Become life-long learners and teachers
Where the placement is based	University College London Hospital
Clinical supervisor(s) for the placement	Dr Khurum Khan

Main duties of the placement	<ul style="list-style-type: none"> • Clerking patients and initiating their investigation and treatment with supervision • Ward cover for the Oncology wards • Ward rounds with registrars and consultants • Close working with the Acute Oncology Team • Effective liaison with the hospital multidisciplinary team, in particular the ward based multidisciplinary rehabilitation team, and primary care • Participation in department audit, quality improvement and clinical governance.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>The F2 placement is on a rota though the only out of hours work is alternate Thursday evenings 1700 to 2100. The rest of the time they should be doing ward work or attending oncology clinics.</p> <p>Teaching: Weekly teaching is available at the following times:</p> <ul style="list-style-type: none"> • Monday 1200-1300 Monthly Journal Club • Tuesday 1230-1330 Morning Report • Tuesday 1630-1730 SpR Oncology Teaching • Wednesday 1300-400: Grand Round • Thursday 0800-0900 F2 and CMT Oncology teaching • Thursday 0800-0900 (last Thursday of the month) Cancer Division Audit meeting <p>In addition, every month there is mandatory F1 teaching provided as a single 3 hour session one morning. This is protected time, and bleep free.</p> <p>Leave: Annual leave flexible and to be negotiated. Study leave is not available at F1 level, although it may be possible to make ad hoc provisions for attendances at conferences if the trainee is presenting an abstract or these can be demonstrated of high educational value.</p> <p>SDT to be agreed individually as per Foundation Programme guidance.</p> <p>We provide monthly foundation teaching to all FDs on every second Wednesday of the month (date/time subject to change).</p>
Local education provider (LEP) / employer information	<p>University College London Hospitals NHS Foundation Trust (UCLH), situated in the West End of London, is one of the largest NHS trusts in the United Kingdom and provides first class acute and specialist services both locally and to patients from throughout the UK and abroad.</p> <p>The new state-of-the-art University College Hospital which opened in 2005, is the focal point of the Trust and is the workplace for this post. Individual Placement Descriptor***

Trust	University College London Hospitals NHS Foundation Trust
Site	University College London Hospitals
Trainee Information System (TIS) Post Code (and local post number if known)	
Placement details (i.e. the specialty and sub-specialty)	F2 Obstetrics & Gynaecology
Department	A busy obstetric unit with approximately 6000 deliveries each year, with a busy gynaecology unit including both acute and elective admissions and acute outpatient work. All the subspecialties, including maternal and fetal medicine, urogynaecology, gynaecological oncology and reproductive medicine, are represented in the clinical workload and expertise of the department with >30 consultants across all areas of obstetrics and gynaecology.
Type of work to expect and learning opportunities	During the obstetrics and gynaecology placement, the F2 doctor works alongside ST1-2 trainees as part of a team of junior doctors with responsibilities for the daily care of inpatients both within gynaecology and maternity. Roles include seeing new referrals, clerking of new admissions and implementing day to day management in conjunction with and under the supervision of the wider multidisciplinary team. There are opportunities built in to the timetable to enable attendance at specialist clinics, gynaecology theatre, labour ward and the maternity inpatients ward in order to gain a breadth of clinical experience pertinent to the specialty in addition to fulfilling the core learning objectives of the Foundation Programme.
Where the placement is based	University College London Hospital
Clinical supervisor(s) for the placement	Dr Anthony Kupelian (Gynecology)
Main duties of the placement	The F2 doctor is responsible together with the multidisciplinary team for the inpatient care of patients on the gynaecology and obstetrics wards and the maintenance of the patient's medical record including admission and discharge summaries. They will have the opportunity to work with the team consultants and specialty trainees during ward rounds, in outpatients clinics and theatres on a regular basis and to attend the labour ward, working within the multidisciplinary obstetric team. They are expected to attend the mandatory teaching and training programmes provided by the department.
Typical working pattern in this placement (e.g. ward rounds, clinics, theatre sessions)	<p>Daily 0730/0800 – 1700</p> <p>Mon: Ward round and jobs 1300 – 1400 Perinatal or gynae pathology teaching meeting</p> <p>Tues: Ward round and jobs</p> <p>Wed: Ward round and jobs</p> <p>Thurs: Ward round and jobs</p> <p>Fri: 0800-0845 Junior doctor O&G teaching Ward round and jobs</p> <p>Weekly: Outpatient clinics and theatre sessions (days vary depending on placement and rolling rota)</p> <p>Monthly: Mon: 0800 – 1700 Obstetric emergency skills training</p>

	<p>(once during placement). Variable days: 0800 – 1300 Divisional audit.</p> <p>On call requirements: The F2 doctors take part in the ST1-2 rota covering both obstetric and gynaecology inpatients (full shift 1:10).</p> <p>SDT to be agreed individually as per Foundation Programme guidance.</p> <p>We provide monthly foundation teaching to all FDs on every second Wednesday of the month (date/time subject to change).</p>
<p>Local education provider (LEP) / employer information</p>	<p>University College London Hospitals NHS Foundation Trust (UCLH), situated in the West End of London, is one of the largest NHS trusts in the United Kingdom and provides first class acute and specialist services both locally and to patients from throughout the UK and abroad.</p> <p>The new state-of-the-art University College Hospital which opened in 2005, is the focal point of the Trust and is the workplace for this post.
